CAMERON, MILAM COUNTY, TEXAS, THURSDAY, FEBRUARY 6, 1919

NUMBER XL

## NEED OF SANITATION IN TEXAS SET FORTH

Sanitary Engineering Bureau of State  
Health Department Makes  
Report.

For the continuation of the work which has been begun by the Bureau of Sanitary Engineering of the State Board of Health, and for the organization and support of a bureau which will be able to render necessary aid and accomplish results which will be of great benefit, the report filed by the bureau makes the following recommendations:

State supervision of water supplies; adoption of a State plumbing code for State buildings and incorporated cities; housing code for cities; grant cities, towns and districts State aid or State aid or State loans for sanitary improvements; a swimming pool law; civil service for department employees and a force commensurate; traveling laboratory; portable chlorination outfit; exhibit experimental station; reference library and the organization of a reserve corps to the bureau.

"Sanitation, the establishing of conditions favorable to health, abating of menace and preparing against disease is probably one of the greatest factors in reducing mortality," says the report.

"The future is in the hands of those who pay the price. The field of sanitation has been barely scratched. A fair start has been made in the abatement of stream pollution, but the State of Texas has thousands of miles of water front and the field is a large one. Soil and air pollution should receive like consideration. Cities are able to and should work out most of their sanitary problems, but the small towns need help. It is usually the cities that call for help. Fake sanitary methods and appliances should be guarded against."

The report further says that sanitary improvements were and still are most sorely needed in a number of Texas towns, especially oil towns. These towns are financially handicapped, according to the report, and should be accorded either State aid or State loans through necessary legislation.

Since the anti-stream pollution act has been in effect, January 1, 1917, report is made that an unprecedented record of sewerage treatment plant construction has followed, until, at the present time, over 160 towns and cities have either started construction or have their plants completed and in operation. The bonded indebtedness of a number of cities and towns has made it difficult to secure the necessary funds for making the improvements. It is reported that there are still several towns financially handicapped at the present time.

"Great stress has been laid on the value of public sewer systems in relation to the public health, and it has been the policy of the bureau to further this construction wherever possible," says the report. "The results as a whole have been very gratifying. A number of towns in the state, however, antedate the time of Moses in the method of night-soil disposal. A sewer system, when properly installed, is the cheapest kind of health insurance."

With reference to the water supplies, the report says the supplies in a number of communities are not safe at all times. It is fully as important to furnish safe water as it is to require pure foods. State supervision for water is urged for the reason.

Capt. Lee Sens of Cameron arrived in this city Tuesday night, having received his discharge from the service several days previous. Captain Sens, is a son of Constable Charlie Sens, and has made a most commendable record since entering the service through the first officers' training camp at Leon Springs, in the spring of 1917, where he made his commission. Since being called into service nearly two years ago Sens has been stationed about over this country engaged in preparing men for overseas duties. Although he did not get to see foreign service he tried to get over at several different times and made good in the service of Uncle Sam in every sense of the word.

## MILAM DELEGATES TO DALLAS MEETING

Sixty Citizens From This County To  
Attend Meeting to Discuss Cotton  
Acreage in 1919.

Sixty delegates were appointed last Tuesday at a meeting of the Milam County Council of Defense held in the court house at Cameron to attend the state meeting of that organization which is to be held in Dallas next Tuesday, the purpose of which is to consider the big question of reducing the amount of cotton to be raised by the farmers of Texas this year. These representatives go to Dallas in response to and in cooperation with recent urgent appeals from the Department of Agriculture that the farmers plant less cotton and more foodstuffs and feed for the coming year. This question will receive thorough consideration at the meeting.

The demand for less cotton and more foodstuffs as an appeal to return to sound farm practice after emergency measures of war. The Department of Agriculture at Washington declares that there is no cause for alarm as to the ability of American agriculture to hold its part of the world trade. It is estimated that the European countries will demand a large supply of foodstuffs for a year or more to come.

The Texas farmer, the Milam County farmer, it is understood, is requested to plant enough food and feed, in addition to his cotton, to care for his family and livestock. Peanut production, important during the period of the war because of its oil, should be made smaller. Increase in dairy cows, beef cattle, some increase in hog raising, sheep and poultry is declared to be sensible as a live stock program.

The following delegates who will leave Cameron next Tuesday on the 1:15 a. m. Santa Fe will arrive in Dallas about 9 o'clock a. m.:

A. N. Green, T. F. Hardy, R. L. Batte, B. P. Atkinson, A. H. Baskin, J. K. Freeman, H. H. Camp, H. L. Yager, M. R. Looney, J. A. Peel, W. W. Cox, W. A. Wilkerson, C. Salter, C. A. Davis, R. B. Rylander, J. R. Fraim, S. W. McLarran, J. S. Barmore, E. A. Camp, J. F. Coffield, D. S. Gilliland, Geo. Banzhaf, A. W. Willis, W. N. Moody, Frank Kolba, H. F. Smith, Jr., W. J. Smilie, J. P. Woodall, I. Looney, E. Vogelsang, Jr., V. L. White, T. J. O'Neill, W. S. Lamkin, E. A. Flinn, J. B. Rogers, Frank Marek, T. S. Henderson, Ed Cahill, P. H. McKinney, Jr., H. C. Meyer, Jno. A. Smith, J. F. McAtee, Will Davis, Sam Clement, Preston Graves, J. O. Newton, Chas. Moore, S. Walshak, J. W. Garner, R. L. Hale, Gus Backhaus, Geo. Doss, Ed Simms, A. L. Lensing, Robt. Isaacs, Steve Marak, L. F. Graham, W. F. Whiteaker, W. A. Bradley, Ed Frazier, H. L. Atkinson and J. S. Jacobs.

### TRUETT BLAYLOCK IN FAREWELL TO FRIENDS

On the eve of his departure for service again after a thirty day furlough from his ship, Truett Blaylock entertained a few of his friends at his home Monday night. A pleasant evening consisting of music, toasting marshmallows, peanuts and fruits, with a course of sandwiches, salad, and hot chocolate at the end was enjoyed by all present. Truett, son of Rev. B. B. Blaylock, left for his ship, the Princess Matoeka, last Tuesday night. From Cameron he went to New York City where he expected to meet his ship. Truett is now making an effort to get out of the Navy.

### Robert McLane Sent Overseas Again

Of all disappointments to a soldier boy these days perhaps the hardest is to be led almost home only to be turned around and shot back to service in France. Robert McLane son of R. A. McLane who lives near Cameron, lately landed at Hoboken, New Jersey, and thought he was in line for a discharge and that blissful journey back home. A letter received by his father last week, however, tells of young McLane's departure for France again.

## AMERICAN HARVESTER IN FRANCE

This photograph gives an interesting view of an American three-horse-drawn harvesting machine being used in a wheat field in France.

## AMERICA SUNDAY IS SCHEDULED FOR 9TH

Request From War Loan Headquarters For "Save and Have" Talks  
Observed Locally.

Next Sunday is America Sunday to be observed in the churches and Sunday Schools throughout the Eleventh Federal War Savings District. Pastors of churches in Texas, Oklahoma, New Mexico and Louisiana will deliver sermons on the text, "Save and Have," pointing out the continued necessity of saving money and lending it to the government in the purchase of War Savings Stamps and other government securities.

In keeping with this program the local Baptist church pastor, Rev. B. B. Blaylock, announces that preparations will be made at that church for the "Save and Have" sermon. Special music, and in addition, several talks by some of the citizens of Cameron. Rev. H. R. MacFadyen, pastor of the Presbyterian church, says that he does not think his church will be in a position to observe America Sunday next Sunday, according to the War Loan Headquarters request, on account of having made other preparations. Rev. W. G. Harbin, Methodist pastor, was out of the city at the time of this writing and it is not known the exact plans of that church for next Sunday.

"Three of the biggest factors in the war savings work are the banks, post office and churches. I am delighted with the response of ministers and Sunday School superintendents of the district to the government's request that they observe America Sunday," Frank M. Smith, Federal District Director of War Loans, declares. "Replies have been received from more than 7,820 ministers, saying that they will deliver a special sermon next Sunday on the science of intelligent saving and wise spending."

### Revival Culminates in Union Meeting At Baptist Church.

Methodists, Baptist, and Presbyterians came together last Sunday night at the Baptist Church in a union meeting which was the culmination of special religious activities going on in Cameron for the past month. Two weeks of revival following by a week of union prayer meeting at the Presbyterian Church was succeeded last Sunday by a sermon by Rev. H. R. MacFadyen, Presbyterian pastor, on "Christian Stewardship."

A large attendance at the meeting heard, in addition to the excellent sermon mentioned above, interesting talks by William Henderson and County Attorney Roy Baskin on the importance of tithing. Special music was afforded which was enjoyed. Rev. W. G. Harbin, Methodist pastor acted as master of ceremonies for the meeting.

Hayden Lawrence left last Saturday to attend a business college for a commercial course. From here Hayden went to Waco to investigate. At the time of his leaving he was undecided as to whether he would go to school in Waco or Dallas.

## BANKS AND BANZHAF GET THANKS VOTE

Support Given Pig and Corn Club by  
Cameron Banks and County agent  
Commended.

At the regular meeting of the Cameron Commercial Club last Friday night a special vote of thanks by motion of Hon. T. S. Henderson was extended to the banks of Cameron and to County Agent Geo. Banzhaf for hearty support and zeal displayed toward the making of the Boys' Pig and Corn Club a success about Cameron and the vicinity. The banks contributed largely toward the success of this undertaking by furnishing the money with which to buy the pigs, while Mr. Banzhaf has worked faithfully to effect a large membership and enthusiasm among the boys.

Interesting talks about the progress being made for better roads in the Buckholts, North Elm, Marak and Yarellon communities by W. W. Chambers and J. T. Parma were heard by members present.

W. W. Chambers offered the opinion that Buckholts would soon be in a position to have a vote upon a bond issue for good roads, and suggested that a speaker from the local Commercial Club be sent to the next meeting held for the purpose of Buckholts. Mr. Chambers also advised that a speaker would be sent to North Elm. J. T. Parma was of the belief that the bond issue would go through at North Elm, Marek, and Yarellon. Hon. T. S. Henderson was appointed by the chair to attend the meeting held at North Elm, if possible.

Mr. T. S. Henderson announced before the meeting that an address will be given at the court house, Saturday February 8, by Mr. Leddy, of the Federal Farm Loan Bank. The speech as announced, will deal with the proposed changes in our present homestead law in Texas.

Members present at the meeting last Friday night were as follows: Robert McLane, T. B. Wooten, C. W. Lawrence, W. G. Gillis, T. S. Henderson, O. M. Smith, J. T. Parma, E. A. Flinn, T. F. Hardy, J. W. Coleman, W. W. Chambers, B. P. Atkinson, George Graves, Frank Lesovsky and Monta Thomas.

### Red Cross Notice

Enrolling Red Cross nurses are desired for instructors in the Red Cross course in Home Hygiene and care of the sick.

The Division office is preparing to organize and conduct classes over the whole territory. The Communities where there are no resident nurses will be taken care of by visiting instructors.

Nurses who are willing to act in this capacity will find a large field open to them, a very interesting and worth while piece of work to be accomplished and will thus be able to extend their Red Cross activities.

Any nurse interested in this work will kindly communicate with the Headquarters of the Division, Frisco Building, Saint Louis, Missouri, directing communications to Dept. of Nursing.

## UNIVERSITY-A. & M. SEPARATION PROPOSED

Governor Will Send Agreed Plan to  
Legislature in Message This  
Week.

Governor Hobby said last Saturday that he expects to send a special message to the Legislature late this week carrying the agreed plans for the separation of the University of Texas and A. & M. College and the scheme for a special tax to support the higher institutions of learning.

It was learned tonight that the Governor and the Attorney General have accepted the plans agreed upon at this week's joint meeting of the regents of the University and directors of the A. & M. College. Dr. R. E. Vinson, president of the University, discussed the matter with the Governor today and immediately after the conference issued a call for the joint subcommittee to meet in Austin next Tuesday to put the final touches on the agreement.

The subcommittee consists of George W. Littlefield, Austin; J. A. Kemp, Wichita Falls; and W. R. Brents, Sherman, on the part of the University, and F. M. Law, Houston; L. J. Hart, San Antonio; and J. I. Guion, Ballinger, for the A. & M. College. Judge Guion retires from the A. & M. board next week and will be succeeded by R. L. Young of Harris County.

Under the plans to be submitted, the University and A. & M. College will be completely divorced and the University fund divided, the University retaining 66 2-3 per cent thereof and the A. & M. College getting 33 1-3 per cent of same. This is agreeable to both institutions.

A program for dividing the land, securities and other assets composing the permanent University fund is devised.

All the higher institutions of learning will be cared for in the scheme to be submitted to the Legislature. It will call for an educational tax of possibly 20c on the \$100 of assessed values, which will take care of the University, A. & M. College, College of Industrial Arts, the Junior A. & M. Colleges and the several State Normals. The plan calls for a coordinated scheme of higher education whereby the work of the several colleges and institutions is dovetailed into a progressive, co-operative system.

A constitutional amendment may be necessary to effectuate the proposed system, but with all the institutions in harmony and agreement, its proponents think it will easily be adopted by the people.

### GET SOLD HERALDS ISSUES TO "READ UP"

Miss Delphia Scott was very much "put out" in her recent sojourn from Cameron because she did not have the pleasure of receiving a single copy of the Cameron Herald to keep her company in her absence from the beloved city.

"I haven't got a single copy this year," wailed the fair lady as she appeared at the Herald Office last week whereupon she made an urgent demand for a copy of every back number for the year 1919 and declared that she would go right home, settle down in the old Morris chair, and read every one of them from tip to tip and top to toe. The force hastened to comply with the demand.

The books revealed that Miss Delphia's subscription had expired on January 1, 1919. And she didn't hesitate to sign the check of a dollar and a half necessary for the companionship of the Cameron Herald for another year.

Geo. Stratton and Fred H. Harvey of Waco, David De Gaffeur of Chilton and Bert Ray of Buckholts came down Thursday for a big hunt. While in the city they were the guests of Penn Wolf.

Miss Sallie Kate McLane is visiting Mrs. L. H. Krough in San Antonio.

W. A. Smith of Dallas spent a few days in Cameron this week.

## BANZHAF IS READY FOR CLUB MEMBERS

County Agent Addresses Letter To  
Cameron Commercial Club And  
Urges Action.

The Cameron Commercial Club and the Bankers of Cameron interested in hog raising:

The three banks of Cameron desiring to assist the boys in the trade territory of Cameron in a substantial way, is arranging through out County Agent, Geo. Banzhaf, who is now organizing Boys Corn and Pig Clubs, in the trade territory of Cameron, to distribute among farmer boys between 10 and 18 years of age, inclusive, who can arrange to properly care for them, one or more car loads of well bred Poland China gilts.

The gilts will not be given away but sold at actual cost, either for cash or terms to suit or on 12 months time at 10 per cent interest. The boys own note, with the gilt purchased, will be the only security required. The hog will be inoculated to prevent cholera, before being distributed, and bred to a registered male.

These gilts will be bought through a government agent and it is estimated that they will cost between \$35 and \$40 delivered at Cameron. Any son of a reputable farmer living in the trade territory of Cameron, may send his name on the blank below, or come to either of the banks in person, if he desires to get one of the gilts.

It must be understood that the banks are not in the hog business and therefore have no hogs to sell, but these banks will assist the boys in purchasing these hogs from reputable breeders.

Any boy interested in the pig club work should apply at either of the banks, or see Mr. Banzhaf, either will be glad to furnish further information if desired.

All applications will be considered in the order received and shipments will be made as soon as a car load can be arranged for and applicants are ready to receive and properly care for their hogs.

Now boys get busy if you are interested in raising fine pigs. Clip off the application below, fill out and send or take it to the bank at once, and we will see how soon we can get up a car of hogs. Besides teaching you how to do business with the bank you will be helping to grow meat to feed your country and make a neat sum of money in addition.

Application For Gilt.  
I am interested in your plan to help the farmer boys of the trade territory of Cameron, to start in the hog business and desire to take advantage of the offer.

The following information will let you know who I am:

My father's name.....  
My school teacher's name.....  
My address.....  
My age....., I reside.....  
.....miles from.....  
.....on the.....road.  
Applicant.

### Speaking At Court House

Charles A. Leddy, General Attorney of the Federal Farm Loan Bank of Houston, Texas, will speak at the Court House in Cameron Saturday afternoon February 8th, at 2 o'clock, p. m. on the subject "The Federal Farm Loan Bank and the amendment to the Homestead Law."

Mr. Leddy authorized us to say that he will answer the criticism contained in a circular issued by the Cameron National Farm Loan Association.

A cordial invitation is extended to the general public and the farmers of Milam County, are especially invited to hear a full discussion of the Federal Farm Loan System.

Come out and hear a fair discussion as to the reason why the Texas homestead law should be amended so that farmers may obtain the same benefits from our rural credit system that are enjoyed by the farmers of every other state in the Union.

Committee.

### THE CAMERON HERALD

Published Every Thursday by  
THE TERRELL PUBLISHING  
COMPANY

Entered in the Post Office at Cameron, Texas, as mail-matter of the second class, under an Act passed by Congress March 3rd, 1879.

Subscription Per Year .....\$1.50  
Payable in Advance.

Subscribers are requested to keep up with the date set opposite their name. The Postal Laws will not allow us to send your paper after your subscription expires, and all papers will be discontinued at the expiration of time paid to.

Thos. N. Herring, Local Manager

Cameron, Texas, February 6, 1919

The Del Rio News advises that those who are good in themselves are the least suspicious of bad in others. That's a fact, and it is also a fact that they are generally the easiest marks for others.

Speaking of lynchings, have you noticed that here in America only the negro rapist or murderer of a white woman is made the victim of the mob, while in Germany political factions take it time about lynching their political opponents?

Current European history right now is made up of bolshevism, strikes, destitution, destruction and death. Human suffering degradation seems to have reached the limit over there. In America we are safe up to the present with the exception of being victimized by the profiteers. Unless profiteering is curbed we may look for the horrors of Europe to make their appearance among us.

Kit Robinson tells us in the Kossie

Cyclone: "The eyes of the world are now turned toward the oil fields of Texas. New territory is being brought in every week, and hundreds of heretofore poor people are stepping into the millionaire class." Your optimism is beautiful to behold, Kit, but you fail to tell us into which class you have stepped. We are watching our step.

Education is receiving some well directed attention at the hands of the state solons. Representative McDonald of Grimes county has introduced a bill providing equal pay for male and female teachers. This is as it should be. We have never yet understood why a woman should do either a man's work or the same work as a man and receive less pay than a man. If the work is the same; if it takes the same effort to accomplish it; if the result of the labor is the same; what, in the name of common sense, has the question of sex to do with the amount of pay? Governor Hobby recommends that half a million dollars be appropriated from the general fund for 1920 to raise teachers' salaries. He is right in saying present salaries are so low to be a hindrance to proper development of the educational system. We want to see teachers of both sexes get more pay and equal pay.

### GERMANY'S SHORTAGE

History may decide that, all things considered, Germany's fatal shortage was neither in white flour nor in copper nor in rubber. It was in humor.

The Allies could never escape the feeling that, in addition to being terrible, Germany was also rather ridiculous. It was a certain disconcerting Englishman who pointed out to Germany at the start that, even in her invasion of little Belgium, the spectacle she presented of a huge, whip-cracking bully striding into a room and stumbling over the doormat had in it a disastrous element of the comic. But then, Germany celebrating the fall of Verdun, Germany pounding nails into her wooden Hindenburg, Germany glowing with pride over her non-combatant fleet, was always a little absurd.

And the Kaiser! The Kaiser all

dressed up like a Christmas tree ready for the triumphant entry into the Nancy that never fell, the shining War Lord scuttling out of his realm as soon as his troops were in trouble. Wilhelm, in any country with a sense of humor, would never have been able to play his role out to its ghastly conclusion. He would have been laughed off the stage in the prologue.

And this same lack in these laughless people led them to misread as a symptom of weakness what was really a sign and a source of strength—the puzzling laughter that floated to them across the waste of No Man's Land. They were bewildered by the British. They could never understand the humor of a people who could catch at the Kaiser's sneer and make a fond and jubilant war cry out of "The Old Contemptibles," who could ruin the "Hymn of Hate" for the Germans by learning it themselves and singing it in the trenches with particular relish for the refrain: "We Hate England." And the French, whose gaiety had misled the Germans into thinking them negligible and frivolous, proved to be quite a serious people on the hills before Verdun. Then it began to appear that the American regarded himself fully equipped so long as he could go into battle armed with a tooth brush and a grin; and it is probably true that his army laughed more per kilometer than any other army in the field. If the first distant sound of endless Americans on the march seemed at all ominous to Berlin, the threat must have grown when, at last, it was reported from the front that the Yank was the most baffling and most deadly of all offensive weapons—the soldier who fights with a smile.—Stars and Stripes.

### DEATH ALMOST WIPES OUT FAMILY OF TEN

Houston, Texas, Feb. 1.—The seventh death in the family of Jackson Flippen, young section foreman on the San Antonio and Aransas Pass railroad, occurred yesterday at Cheatham when his 75-year-old mother died of pneumonia. Only his 6-year-old widow, 7-year-old daughter and aged father survive of a family of ten.

The Flippen home was destroyed by fire January 5 at Clodine. Flippen and five children, the oldest 6 years old and the youngest twins of 7 months were burned to death. Though terribly burned herself, the wife rushed back into the flaming section house and dragged her mother in law to safety. Pneumonia developed, however, and Flippen's mother died. Her 78-year-old husband is reported very low.

### New Residents from Cameron

Mrs. J. D. Morton and sons, John and Marion Morton, late of Cameron, have moved to Waxahachie, and are at present located at Hotel Rogers. The Mortons have bought the Princess Cash Grocery store and will have associated with them in their business here Mr. O. P. Adams who comes with them from Cameron, and has been their business associate for several years. Mrs. Morton's husband, the late J. D. Morton, who died a little more than a year ago, was a resident of Cameron twenty-two years, and was a merchant and cotton buyer there. The Morton family expect to make Waxahachie their permanent home, and will buy or build a home here in the near future.—Waxahachie Light.

The publicity department of the Red Cross in France is in charge of Mrs. Helen O'Shaughnessy, wife of the former Ambassador to Mexico.

"Your name will echo down the corridors of time." "No, it won't," rejoined Senator Sorghum. "A man goes out of attention quickly these days. Three months after he's out of office he's lucky if he's important enough to be paged in a hotel lobby."—Washington Star.

That is the bitterest of all—to wear the yoke of our own wrongdoing.—George Eliot.

"Ah, many a good story I told under that fine old tree out there." "Oh, yes; I see it is a chestnut tree."—Baltimore American.

The Justice—"You promise to love, honor and obey this man?" Eloping Girl—"I do. Now it's your turn, Dick. Take your hands from your pockets, stand on both feet, throw away that cigarette and don't look so like a fool."—Boston Globe.

Mr. Hoskins—"Look, my dear, Bertie has sent us a weather barometer!" Mrs. Hoskins—"How good of the dear boy to be so thoughtful! Which way do we screw it when we want the weather to be fine?"—American Boy.

My hunger overcame my pocket book. And took me down the street, And stopped me at the market Where the butcher sells his meat. I asked him for a little steak, And counted out my coin; Fearing that I'd lack a dime, For the steak he grabbed was loin. He wrapped it in a pound of paper, "Will that be all?" he said. I shoved him every coin I had, It was my all, and fled.

Where He Drew the Line  
Willie was in a bad temper. His mother had just discovered that there was not a clean night shirt ready for him to wear.

"Never mind, Willie," she said consolingly, "you will have to put on one of your sister's night gowns tonight."

"What, a girl's?" snorted Willie, drawing himself up haughtily.

"Yes. Why not?" asked his mother in surprise.

"I won't wear it," declared the boy.

"I'd rather go to bed raw."—Pittsburg Chronicle-Telegraph.

First Officer—"Yes, we were marching over a plank bridge when it gave way and the men fell in."

Second Officer—"And what did you do?"

First Officer—"I ordered them to fall out."

Paw Knows Everything

Willie—Paw, what is the difference between relatives, and relations?

Paw—"If they are rich, they are relatives, but if they are poor they are relations, my son."

Oh!  
"It is said here that women talk more in summer than they do in winter," said the old Foggy, as he looked

up from his newspaper. "Do you believe that?"

"Sure, replied the grouch. "The days are longer in the summer aren't they?"

Oh Joy!

"Mrs. Gadder tells me that Mrs. Shopper died a happy death," said Mrs. Gadder. "How did that happen?" "She was crushed to death at a bargain sale," replied Mr. Gadder.

Gladys Floppit thinks modern life is very complicated because she eats chilli at the drug store for breakfast.

Oyster salad may be served hot or cold.

Well educated women between the age of 20 and 30 years are a drug on the labor market in Europe.

### A Tonic Laxative

that will remove the bile from the Liver and cleanse the System THOROUGHLY without griping or disturbing the stomach is truly a Perfect Laxative.

### LAX-FOS WITH PEPSIN

is the name of a Reliable and Perfect Laxative which soon relieves Sick Headache, Dizziness, Indigestion, Stomach Trouble, Gas and Piles caused by a Torpid Liver and Constipation. Always use a Reliable Laxative in the treatment of Colds, Grip and Influenza.

LAX-FOS WITH PEPSIN is a Liquid Digestive Tonic Laxative excellent in its effect on the System, both as a tonic and as a laxative. It is just as good for Children as for Adults. Pleasant to take. Children like it. 50c.

Made and recommended to the public by Paris Medicine Co., St. Louis, Mo., manufacturers of Grove's Tasteless Chill Tonic.

A good soup can be made of chicken giblets and potatoes.

### LOYALTY LOAN DRIVE OF TEXAS BAPTISTS

Business Men Organize For State-wide Movement in the Interest of Baptist Schools.

Texas Baptist begin their Loyalty Loan Drive throughout the State, for \$1,000,000.00 Sunday, February 9th. February is to be known as a "Million Dollar Month." They have in the State twelve large schools, including the Southwestern Baptist Theological Seminary at Fort Worth, and Baylor Medical College, Dalls, with total assets of over \$4,000,000. There are 227 teachers, with 5,250 students enrolled this session, up to November 1st. There were 1,126 S. A. T. C. students in the various schools up to their demobilization.

The Baptist General Convention, at its last meeting in Dallas, in December, authorized the issue of \$1,000,000.00 in bonds to be known as the "Loyalty Loan." The object of this Loyalty Loan, as it is called, is to refund all debts now outstanding upon the various schools, at a uniform rate of 6 per cent interest, thereby saving over \$15,000.00 per year. At the end of ten years all debts will be provided for, or paid, and \$1,250,000 in cash will have been invested in new improvements at the various schools as need may arise.

This method of financing the Baptist school system has been under advisement for more than two years, being under consideration before the war.

The General Campaign Committee appointed by the Baptist Executive Board met recently in Dallas and organized by the election of Mr. M. H. Wolfe as general chairman, Mr. R. E. Burt, vice chairman and Dr. F. S. Groner as executive secretary.

This Business Men's Campaign Committee will be composed of 100 prominent Baptist business men over the state who will have a large part in floating the million dollar loyalty loan. The bonds themselves will be placed through voluntary workers by popular subscription. The bonds will be issued in denominations of \$50.00, \$100.00 and \$1,000.00 bearing interest at 6 per cent semi-annually, and are issued in coupon form, thus enabling the holders to clip the coupons and collect same through their local bank. The commercial value of the bonds are appraised as equal to government bonds by leading business men of the state, because of their being not only guaranteed by first mortgage on \$2,000,000.00 worth of physical property, under sworn appraisal, but also of the moral backing of the Baptists of Texas, numbering some 400,000, and with an organized history of seventy years in business for the Master without defaulting on a single obligation.

#### EX-POSTMASTER THANKS PEOPLE FOR COOPERATION

Judge Ed English, who last week announced the acceptance of his resignation as Cameron's post master, has served faithfully in that capacity for the past several years. Coming into the office shortly after the 1912 presidential election Judge English has witnessed many improvements in the federal mail facilities in this city. He asked the Herald to thank the numerous loyal citizens of Cameron who cooperated with him in securing the new federal post office building in this city and other improvements that he has sought to bring about in his official capacity as post master.

A choice lot of alfalfa hay for sale at Batte's Store. 40

#### TWO CARS DAMAGED IN SMASH-UP YESTERDAY

A badly mutilated Chevrolet belonging to Wilkerson's Garage and a crippled Ford truck of John Brock's are the results of a smash-up occurring near the high school building yesterday afternoon about 4 o'clock. The two cars collided at the corner in front of the home of R. H. Johnson. The Chevrolet, driven by Walter Walker, was badly smashed up, while the Ford sustained a broken wheel. Several gallons of oil being carried in the truck at the time of the accident were spilled in the street. Neither of the drivers were injured.

Batte's Store sells feed stuff cheaper because they have no hauling charges to pay. 40

#### KEMP GETS APPOINTMENT AS ACTING POSTMASTER

Jeff T. Kemp of this city last Tuesday received notice from the American Surety Company of his appointment as acting postmaster for Cameron. Mr. Kemp will take charge of the postoffice, according to information, on February 15th, and will serve pending civil service examination. In the meantime the office is in charge of Assistant Postmaster C. P. McGregor, who was appointed by the American Surety Company to take charge upon the acceptance of Judge English's resignation as postmaster, January 29th.

## No Wild--Catting Here

Ten Acres in Burkburnett, and They Cost a Lot of Real Money

Right In the Center of a Golden Field

Our acreage is in Block 45, between the largest producing wells in the entire field, Mason Big Three holdings within fifteen hundred feet of our company.

## HOW CAN WE MISS?

There are six companies going to drill in this same block, their derricks are under construction now. On Our acreage we can drill at least six wells, and the stockholders share equally in all leases, wells, etc. The directors are sure of getting oil, but are uncertain in what quantity they will get it. Don't wait until we get the oil. BUY NOW, for stock will not be for sale then at any price. Now look at the men behind the company. You know them all, men known in Fort Worth—they stand for integrity, honesty. That means that you will get a square deal. All home boys.

The Cameron Fire Department was called out last night to the home of Robert McLane of this city. The cause for the alarm was a burning chimney flue which threatened to result in damage to the house.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company.

Rev. W. G. Harbin has been appointed county chairman of the campaign among the Sunday schools for the relief of the destitute people in Bible Lands. This campaign lasts from the 17th to the 24th of this month. It is hoped that the Sunday schools will take up their collections on the 16th. All people are urged to give this their careful and prayerful consideration.

### The Priscillas Meet.

One of the most delightful social events of the weeks was last Thursday afternoon at three o'clock when Mrs. Judd Davis entertained the Priscilla Club.

The Priscilla Club is quite a popular organization of the young married women of the town which has existed in the city for many years. Like all the other clubs of Cameron, it suspended its meetings during the war, so this was the first meeting in some months and it was good to meet again in social intercourse.

A very pleasant time was had plying the needle. After this in business meeting the club elected officers for the new year and the following were elected:

Mrs. J. C. Martin, President.  
Mrs. Geo. T. Graves, Vice President  
Mrs. Albert Triggs, Treasurer.  
Mesdams Stanley Boles and Jim Sampson were elected new Priscillas. The club is to meet every second and fourth Thursday and the next meeting is to be with Mrs. R. H. Baskin.

At the conclusion of the meeting the hostess served a dainty and refreshing salad course to her guests. Mrs. Mrs. Hickman of Weatherford was the club guest.

### Plows.

We have reduced last years prices on all plows and middle busters. Now is the time to buy.

Henne & Meyer Co.  
Cameron, Texas.

### Happily Married

Monday morning at the residence of Mr. and Mrs. Robert L. Lyles, occurred the wedding of Mr. Sam Cobb of this city and Mrs. Era Whitaker of Brackenridge.

Only a small number of friends witnessed the ceremony. The groom is manager of R. L. Batt's round bale gin and was reared in Cameron. The bride was reared in Milam County and has lived here most of her life. They will make Cameron their home.

The Herald joins their host of friends in wishing them every success and one sweet dream of married bliss.

### PLAN CAMPAIGN TO IMPROVE THEIR HIGH SCHOOL

An educational mass meeting was held last Monday night in the Lights Chapel Baptist church (colored) of Cameron, the big purpose being improvements in the industrial department of the colored high school. As a result of the meeting a campaign was planned by the colored people and a committee appointed to raise the sum of \$150.00 for this purpose. The local board agreed to give a dollar for every dollar raised. Prof. A. R. Jefferson, of the colored school, requests that every colored family in the city make an effort to give a dollar. Dr. A. S. Epperson and Prof. L. H. Kidd addressed the meeting with encouragements.

### Plows.

We have reduced last years prices on all plows and middle busters. Now is the time to buy.

Henne & Meyer Co.  
Cameron, Texas.

## WE DON'T KNOW

WE DON'T KNOW anything about advertising.  
WE DON'T KNOW anything about ad writing.  
WE WERE ADVISED to consult an expert concerning copy.

WE DID NOT TAKE the advice.  
WE WERE TOLD THAT copy prepared by a layman would not be read.

## WE DO KNOW

WE HOPE YOU will read this ad nevertheless.  
WE DO KNOW THAT we have something to say.

WE DO KNOW THAT many people have made money in oil in our locality.

WE DO KNOW THAT there is oil in BURKBURNETT.

WE DO KNOW THAT WE HAVE A LEASE on ten acres in Block 40.

WE DO KNOW THAT the Humble 2500 barrel well is about 1-4 mile from out lease.

WE DO KNOW THAT our lease is not for sale, than a mile from town.

WE DO KNOW THAT our lease is not for sale, notwithstanding the fact that we could sell it for many thousands of dollars more than it cost us.

WE DO KNOW THAT we are going to drill and will begin mighty soon.

WE DO KNOW THAT OUR BURKBURNETT lease is only one of our three holdings.

WAR PRICES RULES ON FOOD  
LIFTED BY WILSON ORDER

Removal of all restrictions on margins of profit on foodstuffs except cottonseed products and eggs and cancellation of most license requirements of importers and distributors, effective Saturday, were announced Friday by the food administration on authority of a proclamation signed by President Wilson at Paris.

The following only remain under license: Importers and distributors of wheat, corn, oats, rye, barley and elevators and warehouses storing these grains and rice.

Importers and manufacturers of tributors of fresh canned or cured beef, pork or mutton, cotton seed, cottonseed products, lard butter and eggs and sugar.

Importers and manufacturers of rice, rice flour, wheat flour and wheat milk feeds and cold storage warehouse men.

The margins still allowed are: Retail cold storage and fresh eggs, 7 to 8 cents per dozen; cotton seed lard substitutes at wholesale, 1 1/4 to 2 cents a pound on more than 50 pound package, 8 to 10 per cent on less than 50 pound packages and 5 to 6 cents and 18 to 22 per cent at retail. Wholesale margins on eggs differ according to the number services performed by the wholesaler or jobber.

In addition to the regulations cancelled by the proclamation, all remaining special regulations governing manufacturers and distributors of butter were repealed.

In making the announcement the food administration warned dealers that the provisions of the food control act prohibiting profiteering and unfair practices would be rigidly enforced.

This action by the President virtually brings to an end the activities of the food administration except for the continued control of the excepted commodities, which, officials explained, is necessary either because of contractual obligations of the government or because of the determination to maintain stabilized prices. It was predicted by these officials that most remaining functions would cease before March 1.

## HELP TO BUILD HOMES

Building and Loan Associations May Hold Place Similar to That of Farm Loan Banks.

Cooperation by building and loan associations on a national scale has been proposed to the Division of Publicity Works of the Department of Labor as a means of aiding home building during the next few years.

The retarded building development during the war has left a somewhat serious condition of congestion in many large cities, and almost everywhere the amount of housing is below normal. On the other hand, many workmen who have been working overtime during the war and who have saved their money believe that this is a propitious time to put some of their savings into a home.

The building and loan associations, it is pointed out, can function in behalf of the home builder much as the farm loan banks aid the agriculturist. Certain difficulties are in the way of a national organization of this work, but it is believed that these can all be surmounted.

Time and tide  
waits for no man---

Geo. T. Graves  
Agent

Cameron,

Texas.

Are you preparing for next winter? Are you going to wait, wait, wait and buy high-priced feed, the same as you are this winter? Think of this! prepare yourself. Cotton might be six cents next year. Raise feed for your stock, prepare to live at home. If you have fat cows, hogs, sheep and chickens you are independent. You can sell your cotton then at 6 or 20 cents—it is just the same; it is all profit. Make your living at home; have your cotton a side line, then you will change your bank account from red to black, from a note to a deposit slip. Now, this can be done with help of a Silo. The Indiana Silo Company furnishes silos and to prosperity; they have the low price and easy terms, so any one can own a Silo.

A Good Place To Get  
Something To Eat

We are now ready to take care of you in the fresh meat line. We have at all time a complete assortment of choice meats, sausages, and chops.

We carry nice fresh butter, Country eggs that are guaranteed to be fresh. You can find here everything carried in a first class market

When you are hungry come here and eat

## Smith Brothers

Market and Restaurant.

Next Door to Law-Sprinkle.

Thousands of Commercially Trained Young People Wanted for Service. Need is Great and Demand for Efficient Help Urgent.

Young people! Will you take advantage of this opportunity? War has greatly widened the horizon of American commerce. One of the benefits growing out of the war is the world wide view point of American business men and women. They are engaged and must continue on a larger scale in the production and distribution of commodities for the world. Our fast growing merchant marine is an important factor in the trade development with the foreign countries. Markets are being opened that have never, heretofore, been visited by American Commerce. The volume of American business must increase. The countries destroyed by the four years of war must be reclaimed and rebuilt. Factories, homes and cities must be restored. American mills and factories are being called upon to do this work. There is work for everybody that is trained in business. There will be a small place for the fellow with just hands and feet to offer. "Brains" are at a premium. Are you going to wait and loaf on the job, while others prepare for the desirable places that all mean future successes? Hundreds of ambitious young people are now with us, preparing for this service. Others are entering every day.

The Tyler Commercial College, Tyler, Texas, with its practical and thorough courses of Bookkeeping, Business Training, Shorthand, Typewriting, Business Administration and Finance, Penmanship, Telegraphy and Cotton Sampling and Marketing will prepare you in the shortest time, at the least expense, to take advantage of these opportunities. You can do what others have done. Make a start now. Fill in and mail for large free catalogue.

## Music Helps During "Flu" Ban

During the recent influenza epidemic, concerts and other entertainments outside of the home were prohibited. Salt Lake City quickly found a way of overcoming the ennui resulting from this musical shut-down. For eight weeks the public musical inactivity rested heavily upon this western town. At least so it would seem to the observer who looked only at conditions outside of the homes. Within the homes of these Westerners something rather unusual was happening during this period—the mechanical

musical resources in the homes were being tapped as they never had been before.

The love of music of the community was not quenched by disease or even death. Although forbidden to publicly express this love of the art, they gave full vent to it in their homes, and throughout the community there arose the greatest revival of "music in the home" these people had ever witnessed. While kept indoors the families regaled themselves with all

the opera records they could lay hands on and with all the concert selections of which they could find piano rolls. Thus, what has been a public loss has apparently proven a household gain.

The Detroit Electric Railway Co. has been ordered by the war labor Board to retain in its employ all women now serving as conductors. The Amalgamated Association of Street Railway Employees were also ordered to give the women cards entitling them to work on the cars.

## CHUG the HOLES

## The PALACE DRUG STORE

Ugh! Calomel Sickens; Salivates!  
Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children as well.

Thos. N. Herring, Local Manager

Cameron, Texas, February 6, 1919

When you accidentally overhear the gossipers getting strung out on somebody else, don't you feel a bit relieved that it hasn't come your turn yet.

It is said that violators of the law along the border are "scared to death" of the Texas Rangers. Some human beings can only be curbed by such fear.

Won't the soldiers from "over there" have a hard time trying to keep step with their little sweetheart when they come back home and begin to haunt the village sidewalks?

And now Villa the Mexican bandit along with Lodge, Weeks, Borah, and others also seem to have created an appetite for "cussin out" the president. He lately committed himself that way.

Jazz dancing has been characterized in a bill introduced before the upper branch of the Texas legislature calling for the prohibition as very immoral and sensual. No more fancy wiggles will feature the visiting carnivals of Texas if the bill now under consideration becomes law.

When Wilson adjusts his "specs," rises up from his seat at the peace conference, sweeps the audience with a gaze, flaps his foot out in front of him, and begins to talk with his chin jutted out ahead, somehow those

fellows can't help but keep quiet and listen to what he has to say on the subject.

Will the political critics never get broad enough to at least admit the good accomplished by one of the opposing party? Were it not for the fact that we know Woodrow Wilson to be so much bigger than any of his sensual critics we would be forced to the conclusion that our president is steering us directly into the bowels of purgatory.

In giving the particulars of an investigation held in France to ascertain whether or not crimes by the American soldiers were as large as charged, the Associated Press declared that in Paris the 34 murders charged to Americans during the month of December have in reality been reduced to two that 244 hold ups were reduced by 80 per cent. It has been proved that criminals of all nationalities have been disguising under the United States Uniform to commit their vicious deeds in the principal cities of France.

A short time ago bellowing protests were being made by loose tongued orators in Kansas and Missouri about the heavy casualties sustained by the 35th Division on the front. They charged neglect of their boys, and made other appealing cries. Now comes the official report from general March that their casualties were less than 1,750 men killed and wounded, missing in action and prisoners. Fifteen of our divisions are reported to have born more losses than this. Wonder what the trouble borrowers will complain of next.

Everyone who is interested in the homestead laws of Texas should make provisions to attend the speaking to be held in the Court House at Cameron on next Saturday at 2 o'clock p. m. Hon. Charles A. Leddy, General Attorney of the Federal Farm Loan Bank of Houston, is scheduled to speak on "The Federal Farm Loan Bank and the amendment to the Homestead Law." Whether are not you, Friend Farmer think that the present Homestead Laws should be amended in some form or fashion, you should take advantage of an opportunity that will give you more light on the question from an angle. Mr. Leddy is your official representative with whom speaks on a subject of importance.

"The newspaper heads are subjected to an enormous lot of criticism, both favorable and adverse mostly adverse. Because of their very business of giving the people information they openly expose themselves to their readers. If they take the right side on a momentous question they are sure to receive the scathing rebukes of hundreds or thousands opposing; or if they stand for the wrong they are sure to be ridiculed by the upholders of right. Ordinarily correct actions by a newspaper does not incite plaudits for the thousands of eyes scanning its pages every day seem to expect perfection. But make a little slip and it raises a howl from the army of readers that reaches to the very heavens.

It has been charged that the Frenchman is effeminate. After he has fought so brilliantly for four years we can hardly charge that but we must admit that there is a radical difference in disposition between the Frenchman and the pugnacious American to be found so often in the West-

## Jazz Music

WHAT is Jazz music? So many have asked that question, and probably it never will be answered satisfactorily. Whence did it come? That, too, is an unsolvable mystery.

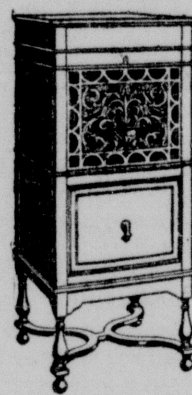

But it is here—the most extraordinary, remarkable, and to many thousands of people, the most fascinating music of the decade.

That Jazz marks a new era in popular music and dancing is unquestioned. And just now in New York on the Great White Way and all along the Rialto the great Lobster Palaces are throbbing and whining with its syncopation—its veritable orgy of rhythm run riot.

All the hilarity of Jazz that jangles in the cabarets of the Metropolis will echo through your own home with true Metropolitan tang, if you will let

#### ASK AID OF WORKERS

Secretary of Labor Requests Help of Labor in Starting Municipal Construction and Improvements

"Use your influence with your city fathers, your selectmen, and other town officers to start at once municipal town improvements." This is the message which the department of Labor is sending to wage workers throughout the country.

The Secretary of Labor, Hon. W. B. Wilson, has no fear as to conditions after the readjustment period is over. He believes that then everything will take care of itself. He further is optimistic even as to the readjustment period of States, cities, and towns will now commence public work to take care of the labor slack which may exist during the readjustment period.

He is therefore urging the wage earners of the country to use their influence in their own communities to have school houses, engine houses, roads, canals and other improvements as beneficial to everyone, can easily be financed for all classes of labor.

London housewives are compelled to do their own work owing to the refusal of women to return as servants after working in the munition factories. Factory life seems to have given the girls a distaste for housekeeping.

### LOCAL AND PERSONAL

#### Items of Interest Gathered Here and There

Miss Jennie Porter of Maysfield visited Cameron Saturday.

Corn for feeding purposes always on hand at Batte's Store. 40

Miss Bettie Henson of Yarrelton spent the week-end in the city.

Take Nux-I-Tone for a spring tonic Palace Drug Store. 41

Dr. Wallace Paul of Rockdale was a Cameron visitor last Thursday.

Mr. Emmitt King of Rogers was a visitor in Cameron last Tuesday.

B. F. Stidham of Jones Prairie was a visitor in Cameron last Friday.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Ance Wilkerson and family of Yarrelton were Cameron visitors Monday.

Avera's Cough Syrup is better for coughs, colds and grippe. Palace Drug Store. 41

S. W. Cheeves returned Tuesday night from a business trip to McKinney.

Mrs. Tom Jeter who is teaching in Jones Prairie spent the week-end with homefolks.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Homer T. Pope of the Frienship community spent Friday and Saturday in the city.

If you want to save money and get the best farm seeds for planting, try Batte's Store. 40

Miss Vance Hardy and Gladys Watson have returned from a visit to Austin.

Cut out "Luck" and use Lime on your garden, and get results. Jeter Lumber Company. 40

Mrs. Alex Beasley and Miss Sallie Beasley are in Dallas purchasing their spring millinery.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

J. H. Dusek has purchased the J. D. Dobbins home and moved his family into it last week.

Batte's Store handles all kinds of seeds for planting and their prices are strictly in line. 40

Mr. and Mrs. Goodhue Barclay and daughter, Miss Lucille, of Waco spent a few days last week in the T. J. Denson home. They also visited Aunt Lizzie Wilson in Salem while in this part of the country.

Mrs. R. E. Higgins is spending this week in Thorndale with her mother, Mrs. C. L. York.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Misses Edna and Ruth McKinney of Jones Prairie spent Saturday in Cameron.

If you want cotton seed for planting, seed that are the best Mebane grown, see R. L. Batte's Store. 40

Miss Bessie Gillis of Jones Prairie visited the family of Judge W. G. Gillis last week-end.

Wallace Moody of Minerva was transacting business in the city last Friday.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Mesdames Bruce Gentry and H. C. Meyer of Rockdale visited Mrs. W. A. Morrison last Friday.

Mrs. W. E. Gaither and little daughter, Billie, visited Mrs. Jim Watson last Friday.

Clean, bright Oat Straw that was never rained on makes good feed. For sale at Batte's Store. 40

Mr. and Mrs. Alex Triggs returned to Rosebud Monday night after a week's visit to relatives in the city.

Lawless Green of the University of Texas spent the week-end with his parents, Mr. and Mrs. A. N. Green.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Attorney E. A. Camp of Rockdale was a visitor in Cameron this week attending county court.

Batte's Store will save you money on all kinds of seed for farm planting. 40

Misses Mabel Jeter and Katherine Flinn who are students of Baylor University were at home for the week-end.

Miss Gertie Graves of Sharp returned to her home last week after a visit in the home of her brother, Geo. T. Graves.

Batte's Store carries a full line of feed stuffs, such Corn, Alfalfa, Oat Straw, Bran, etc, at prices that are right. 40

Newt Van Zant of Granger was a Cameron visitor Monday. He is the father of Dr. Van Zant who is now in France.

Dr. T. A. Pope returned Sunday from the Temple Sanitarium where he has been for treatment. He is greatly improved in health.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Miss Helen Flinn came in from Baylor College at Belton Thursday and spent several days with her parents, Mr. and Mrs. E. A. Flinn.

Rev. Dr. J. E. James of Marlin was a visitor in Cameron last Tuesday when he had business with Rev. H. R. MacFayden.

Amber and Orange Cane Seed, choice stock for planting. Batte's Store. 40

Miss Lizzie Whites has been "under the weather" for the past week but is getting better at this time.

Dr. G. Lowden, at present residing in this city as Government representative of the Tick Eradication Campaign, is sick this week with something resembling influenza.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Little Billie Wallace who has been in the sanitarium the past three weeks was removed to his home the first of the week. We are glad to know that he is improving nicely.

Grandma used ashes on her spring garden. Agricultural Lime is the modern way. Put up in convenient packages. It is easier, quicker, and more effective. Sold by Jeter Lumber Co. 40

Truett Blaylock left Tuesday night for New York where he will be sent to his ship, the "Princess Matioka". Truett has enjoyed a thirty day leave with his parents, Rev. and Mrs. B. B. Blaylock.

Miss Alice McGhee who has been connected with Cheeves Bros. for several years has accepted a position with Triggs Dry Goods Co., where she is to be head trimmer. She left Monday night for St. Louis to buy the new spring hats.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Rev. W. G. Harbin left last Tuesday afternoon for Center Point, south of San Antonio. On Wednesday afternoon Mrs. Harbin and her little daughter, Helen, left for San Antonio where they were met by Rev. Harbin, thence to Center Point. Here Mrs. Harbin will remain several weeks recuperating from the influenza.

Cut worms and other garden pests cannot be exterminated by using lime, but they can be checked, and their ravages reduced to a minimum if you use Agricultural Lime. Now is the time to apply it. Jeter Lumber Company. 40

Lieut. John Seibel, son of Mr. and Mrs. B. M. Seibel of this city, arrived in Cameron last Tuesday, being placed on inactive duty without discharge and subject to call at any time. Seibel announced that he will remain at home with his parents for several days.

Charlie Smith, formerly janitor at the court house in Cameron, returned to this city the first of this week and is shaking hands with many of his old friends. Mr. Smith hails from Anconda, Montana. Since leaving Cameron Smith has traveled widely and included a lengthy stay in Alaska during his wanderings.

Peach trees are blooming. Now is the time to put Agricultural Lime on the garden lot to correct the acid in the soil, release plant food for use of the growing plants, and make even fertile ground more productive. Jeter Lumber Company has Agricultural Lime and it is not expensive. 40

News from Clarence Smith, formerly a Cameron boy who graduated from the local high school with the 1915 class, tells that he is still in France, well, and having a good time. Smith is in Company F, 11th Regiment, United States Marine Corps. He admits that they cannot get him out of France too soon now.

Mr. Niley McKinney of Jones Prairie was a visitor in Cameron last Tuesday. Mr. McKinney is one of the oldest settlers of Jones Prairie and is a large planter of that section. His two daughters are in Baylor University and he is making preparations to sell his land, according to information.

Rich fertilizer on your garden will not produce the fullest results if the soil is tight and dead, unless you give the soil a dressing of lime. Agricultural Lime mellow the soil, causes the fertilizer to disintegrate, and release the chemicals so the garden crops can get the benefits of them. Can you afford to wait? Jeter Lumber Company. 40

### Planting Seed.

I have about 20 tons of seed that I have kept for planting which are from cotton raised from Storey Myrick Mebane seed that were direct from Lockhart in 1917, and gin records show a lint per cent from them of from 35½ to 40 9-10 per cent. These seed were saved pure as we used every care in handling them at the gins, the rolls being run out each time before these seed were caught. I will sell these seed while they last at \$2.25 per bushel.  
R. L. Batte, Cameron, Texas.

## Cam-Hi Weekly News

Edited by the Students of the Cameron High School.

Knox Tyson.....Editor-in-Chief  
Jack Logan.....Assistant Editor  
Walter Adams.....Senior Editor  
Gaston Barmore.....Junior Editor  
Stewart Epperson.....Sophomore Editor  
Lee Tag.....Freshman Editor

### High School Life

"Pep" is the life of a high school. It is that thing which produces interest and enthusiasm in studies, makes hard work seem as if play and helps our school teams win. If "pep" is not present a school is soon sapped of its best benefactor. Nothing can help a school more than to have friendly rivals within it. It creates interest and behooves one to put forth the best that is in one.

Such has been conditions in the Cam-Hi for the past week. The Juniors challenged the seniors for a basketball game. The sophomores promptly declared themselves in favor of the Junior. The freshmen and seventh graders supported the Seniors. For such a display of "pep" one has never seen a comparison. Yell practices were called and various yells were learned. But, more valuable than that, "pep" creates cheerfulness and work. An observer in Cam-Hi would have noticed this every day of the past week.

### Seniors Victorious.

On Wednesday, January 29th, the Juniors and Seniors clashed in one of the best basketball games ever played on the local court. The Seniors all "garbed" in their class colors, purple and gold, and with their supporters, the Freshmen and Seventh graders, were on one side of the court giving yells for the senior team. While on the other side of the court were the Juniors and Sophomores all "diked" out in green and yellow, very suitable colors for them, giving yells for the Junior team.

The game started off with a goal for the Juniors. This brought out a great cheer from the Junior section. This did not seem to bother the seniors for they piled up the score with field goals. The Juniors soon caught us again and there followed a series of one team taking the lead and then the other. The half ended with the Juniors 9 and Seniors 8.

The next half the score continued to fluctuate, Denson, one of the Senior forwards, proved himself to be

one of the best forwards on the court. Peel, another one of the seniors, showed very much accuracy in throwing goals.

While all of this was going on, both classes were yelling and cheering for their team. Each side vied with one another in who could make the most noise. Time was called when the score was a tie, 16-16. This necessitated an extra period of five minutes to play off the even score. The seniors finally won the game with a score of 22 to 20.

### Chapel Exercise

The Cameron High School enjoyed their weekly exercises Thursday afternoon. A comical program was featured:

"Comical Music" Samantha Korn-tassel—Maudie Weaver.

Debate: "Resolved that the dish rag is more useful than the broom." The affirmative was upheld by the Juniors represented by Katie Cone and Mildred Chambers. The negative by the Seniors with Harriett Henderson and Katy McCall. The decision of the judges was in favor of the affirmative. The arguments advanced by both sides brought forth laughter and applause.

Comical Sermon—Leland Denson. Reading of the "Jokiteer."—Velda Walker.

The St. Cecilia Glee Club (Dixie Girls) from Bagtussel.

The glee club girls were appropriately dressed in costumes of Ark days and rendered a medley of songs of corresponding date. They responded readily to encores with "I Ain't Got Weary Yet."

The program was a success and was enjoyed by the high school and the seventh graders. Next week's program promises to be as good.

### Class Spirit

Class spirit! Cam-Hi is rife with class spirit, school spirit and pep. Ask the Juniors. Perhaps a little slow in going over the top with 100 per cent in red cross dues but now fully aware of their latent loyalty and leadership. The class has a motto that is stirring and thrilling: "Juniors first and best." Great pep and ginger were exhibited in Wednesday's basketball game when the "fearless senior five" were met by the dauntless "junior quintette." Although the juniors lost the score by two points in the last half minute of play their spirit is not broken. The juniors with characteristic pep and come back will once more test their ability against the seniors. If you want to see real class spirit

watch the juniors come out next Wednesday with flying colors.

### Clever Thief

Eugene, Henry, Eliot and Clark were lurching in restaurant on a corner. Eliot went across the street to see a friend, and during his absence Eugene substituted for his own cup of milkless black coffee.

When Eliot returned to his lunch he could hardly believe his eyes.

"Well," he said, "I have heard of clever thieves, but to swipe the milk out of a guy's coffee is sure going some."

### Cam-Hi Military Expeditionary Forces

Preparations are being completed for the military hike on Friday afternoon. The winter time is ideal for out door hikes, for the invigorating cold air makes one feel like getting out and taking the much needed physical exercise. All the boys in the high school who wish to go are being organized into squads, each squad will be a unit by itself, it will have its own camp fire, mess preparation and other things such as quilts and blankets. The whole expedition will be under the command of "Capt." Crawford and the assistant lieutenants to be commissioned from the high school boys. School work will not be interfered with in the least and all preparations must be made out side of school hours. The Expedition will leave Friday afternoon as soon after the close of school as possible.

### New High School Piano

When the orchestra met last Thursday night for rehearsal we were all delighted to find a beautiful new piano awaiting us. We were not surprised for we have been certain that the ladies clubs would come to our rescue. The deal was put through our Howell music firm. The new instrument is in a golden oak finished and is a beautiful adornment for the stage. Mr. Crawford made the announcement that we will often have girls play in chapel. Good music, well rendered, like Miss Madie Weaver's selection on Friday, is an inspiration to all of us. We are also expecting to have some song books in the near future, and according to information we will have two or three short chapel exercises each week in order that we may have a chance to sing. Community singing is a very fine thing and we notice in the large cities the best class of people are meeting regularly for these community singings. Ours will not be on a large scale like that, but we hope to fill our auditorium with strains of good songs.

### Physics Lunch

In order to do an unusually long experiment, the senior class, because they would not have time to go home at noon, were asked to bring lunch on Friday. Each vied with one another in who could bring the most and best of "eats," which together with some most excellent hot chocolate made by the girls of the class, was eagerly "devoured" by the hungry experimenters.

### The Peace Conference Talks

The Seniors have been following the work of the peace conference in an excellent manner for the past week. Louise Green gave a brief but clear summary of the work done Thursday, Friday, Saturday and Sunday. In the absence of Irma Muse, Knox Tyson told of the work accomplished on Monday. Jack Logan followed step by step the work done in Tuesday's conference. Irene Cheeves gave a description, noted for brevity, of the discussions on Wednesday. Friday Katy McCall outlined very clearly, the positions that American delegates are taking and the work they are doing.

If any one does not wish to read the daily papers, come and listen to the seniors and hear the news.

### The Annual Staff Being Organized

The seniors have had a class meeting and have elected all officers and editors for the Annual. The following were elected from the senior class: Elliott Atkinson, editor-in-chief. Albert Collins, business manager. Cecil Barmore, assistant editor. Thomas Hefley, assistant business manager.

The editors have started collecting work for the Annual while the business manager has been calling upon the business men of the town for ads. You business men be prepared. This annual is to be the best ever put out by the Cameron High School and we want every one to have an ad in it.

Plans were being made to take the basketball teams to Ben Arnold and a request for cars came. Miss Rose—"I can take two players in my car, that will make four."

### Cam-Hi-Ben Arnold Game

Last Friday afternoon the boys and girls teams of the Cam-Hi went over to Ben Arnold to have a double header basketball game. A number of students were given permission to ac-

company the teams and from the rooting on the side lines one should have thought the Cam-Hi well represented.

The girls won an easy victory over the Arnold girls, the score resulting 11 to 5. The following girls were on the team: Louise Denson, Helen Tracy, Owen Bacon, Madie Weaver, Bess Wiley, Helen, Tracy, Rosa Daley and Bess Logan. The girls team is expecting to play Rockdale Friday.

The boys game was called after the girls were through. This proved to be very exciting and the first half was very rough, a large number of fouls being called on each team. This was to the advantage of Ben Arnold for they have a goal thrower who seldom fails. In fact Ben Arnold won the game on the Cam-Hi fouls. The last half was more like basketball, for the referee informed each team that any "ruff stuff" would disqualify any player. At the end of the second half the game was a tie, the score being 10 to 10. This necessitated an additional play of five minutes during which time Ben Arnold ran up three more points.

We hope to have several more games with the Ben Arnold school, for they are sportmanlike and put up a good game.

### Laboratory Work in Senior History

The United States Congress convened on Monday, January 27, in room 16, in special session called by the Hon. Amelia Williams, president of the U. S. A. This will always be remembered for the vital questions considered and the momentous proceedings that followed.

On Monday the center of interest was in the House. The chief officers in the House were Hon. E. W. Atkinson from Idaho, Speaker and Hon. B. V. Roberts from Missouri, clerk. In this session the democrats were in power by a small margin. With the powerful legislation of Hon. R. C. Thompson the Democrats managed to pass all of the bills brought forward

by them. Barge and Green were the most active republican representatives. Many bills were originated in the House and there were heated discussions from them.

The Senate being a smaller body was more dignified and orderly than the House. The vice president was Hon. Harriett Henderson from Michigan and she proved herself a very able officer. The following senators were democrats: Epperson, Coleman, Collins, Adams and Tyson. The republican senators were: Peel, Bragg, Ethridge and Horstman. The democrats who took most active part in the proceedings were Knox Tyson from Texas and J. L. Coleman from Missouri. They were opposed chiefly by the following republicans: Hon. H. W. Peel of Maine and R. Ethridge of New York.

Tuesday at the end of this session, Congress adjourned until some indefinite time and the record shows that the following work has been accomplished:

Two bills, one of which has been amended became laws. Both originated in the senate. The Coleman bill, entitled "To Exempt Congressmen from income tax" naturally passed both houses unamended, and was afterwards signed by the president. The substance of this law may be inferred from the title. The Peel bill which originated in the senate, provided that the president shall be elected by popular vote. It was amended in the house of representatives so as to provide also that he be elected for a term of six years with no reelection. The amendment having passed both houses was sent to the president. The president signed it and it became a law.

Besides these bills there were many important one which failed to become laws. The chief one, perhaps, was the Atkinson-Thompson bill, by which the president's salary should be increased. At first this embodied a "rider" in the interest of the Hon. Idaho representatives, but when the

rider was removed by amendment the bill passed the house, it was killed, however, in the senate.

The McCall-Green bill, originating in the house, provided for the appropriation of a fund for the purpose of feeding certain European people who are now on the verge of starvation. It was passed in the house, in spite of the argument of Mr. Thompson of Idaho. In the senate Hon. Raymond Ethridge made a supreme effort to secure its passage. He adopted the awful horrors of "letting these people die" and at the end of his speech there were but few hearts that had not been touched and probably only a few tearless eyes. But there came speeches by two hard-hearted democrats and they influenced the senate to kill this bill that had been introduced in the name of humanity.

The Green bill entitled "The expenses of congressional candidate must not exceed \$10,000" passed both houses, was vetoed by President Williams, and was returned to the lower house. Here it was passed by two-thirds vote over the president's veto. When it was sent to the senate, that body refused to pass it over the president's veto, and thus was killed.

### Personals

"Red" Collins, away with that gum. Try to take a picture of "Crip" preaching a sermon.

Cecil Barmore was sick on Thursday.

Raymond Thompson's fingers are improving. Lets reinstate George Cone as a freshman.

Will some one suggest to Louise that she leave her umbrella at home, and to Harriett that she divide her hat with Katy and Irene.

The Annual staff has had a meeting. You editors roll up your sleeves and get busy.

The Girls Choral Club may be heard at intervals warbling in the after school rehearsals.

# Boiled Just Right

One of the arts of making good syrup is in the boiling. Dunbar's King Komus Syrup comes from the kettles just right. Not only is it boiled and sterilized in a most modern and up-to-date plant, but it is watched and tested by experts. It is heated to just the right degree to preserve it well, and at the same time it preserves the genuine flavor of the cane to the best advantage.

## Dunbar's King Komus Syrup

is put up in a model factory. It goes right from the kettles to the cans and there is no possible way for it to come in contact with anything unsanitary on the way. The cans themselves are cleaned by machinery and sterilized and the syrup is capped by machinery. They are sanitary to the last degree. Dunbar's King Komus Syrup comes to you as pure as it is possible to get it. Above all the Syrup is of the highest quality. It is made from fine Louisiana sugar cane and has the delicious flavor of the cane that is so much desired in syrup. Dunbar's King Komus Syrup is the best for your table; for cakes, waffles and bread and butter.

## NEXT LOAN IS TRUE TEST OF PATRIOTISM

People of This Country Must Com-  
plete Great Task Undertaken to  
Save Humanity.

As time of the fifth Liberty Loan approaches nearer day by day it be-  
hooves every true American to be-  
gin to consider, provide, and make  
plans to do his dead level best in the  
big final drive for world freedom.  
Citizens of Milam must not and will  
not be found lacking at the final  
count.

The initial appeal in the great drive  
to come is now being issued over the  
country by the different headquar-  
ters of the treasury department Pub-  
licity Bureau. "By the time the Gov-  
ernment calls upon us for subscrip-  
tions to the Fifth Liberty Loan we  
shall, as a nation, have received from  
contractors, ship builders, our sol-  
diers and sailors and others, goods  
and service to the value of several  
billion dollars—all on credit. To pay  
the bill incurred under such conditions  
is but a measure of honesty in accord  
with our dignity."

It is a fact that the next loan will  
be the true test of patriotism. In  
the coming loan we will not be promp-  
ted by such a display of flags and  
colors, brass bands, and tales of he-  
roic deeds fresh from the bloody bat-  
tle fields, all of these many features  
in former drives as loosened our purse  
strings and made us "shell out" in  
behalf of the great cause and our-  
selves. "In the Fifth Liberty Loan  
we shall stand stripped of every im-  
mediately selfish motive, and our ac-  
tions will proclaim to our fellow men  
to what extent we have caught the  
spirit of high and enlightened patriot-  
ism."

One more mighty effort is requir-  
ed of us, of you, of the people of Mil-  
am county, as well as every other  
county in this state and every state  
in the United States. It is not within  
the spirit of Milam to cringe and  
wriggle from beneath its share of the  
responsibility.

Women who supplanted men in cler-  
ical positions during the war and who  
have made good will in most instances  
be held in their jobs.

## For Weak Women

In use for over 40 years!  
Thousands of voluntary  
letters from women, tel-  
ling of the good Cardui  
has done them. This is  
the best proof of the value  
of Cardui. It proves that  
Cardui is a good medicine  
for women.

There are no harmful or  
habit-forming drugs in  
Cardui. It is composed  
only of mild, medicinal  
ingredients, with no bad  
after-effects.

### TAKE

# CARDUI

The Woman's Tonic

You can rely on Cardui.  
Surely it will do for you  
what it has done for so  
many thousands of other  
women! It should help.  
"I was taken sick,  
seemed to be . . .,"  
writes Mrs. Mary E. Veste,  
of Madison Heights, Va.  
"I got down so weak,  
could hardly walk . . .  
just staggered around.  
I read of Cardui,  
and after taking one bot-  
tle, or before taking quite  
all, I felt much better. I  
took 3 or 4 bottles at  
that time, and was able to  
do my work. I take it in  
the spring when run-  
down. I had no appetite,  
and I commenced eating.  
It is the best tonic I ever  
saw." Try Cardui.

Mrs. J. N. Henderson Dies in Houston.

Last Sunday afternoon at five  
o'clock at the home of her daughter,  
Mrs. R. C. Watkins of Houston oc-  
curred the death of Mrs. John N. Hen-  
derson. Mrs. Henderson was the  
widow of the late Judge John N. Hen-  
derson of the Court of Criminal Ap-  
peals. At one time he was district  
judge of this district and during that  
time Mrs. Henderson was a frequent  
visitor in Cameron. Judge Henderson  
was the brother of Hon. T. S. Hen-  
derson and Miss Ada Henderson of  
this city.

The funeral was held in Dallas  
Tuesday morning at eleven o'clock.  
Deceased leaves two daughters, Mrs.  
B. B. Stone of Fort Worth and Mrs.  
R. C. Watkins of Houston.

#### Plows.

We have reduced last years prices  
on all plows and middle busters. Now

Augustine V. Wokaty returned Wed-  
nesday from San Diego, Cal., where  
he has been in training at Balboa  
Park as a sailor. Wokaty has been  
discharged from the service.

Rainfall for Last Month Five Times  
January, 1918.

Rainfall in Cameron for January  
was the most thorough of any recent  
year beginning for the crops. As com-  
pared with the downpour in January,  
1918, we find that the preceding  
month's record has been over five  
as large. In exact figures the rain-  
fall for January. As a result of this  
liberal saturation of the soil the Mil-  
am County crops for the coming year  
have been given a big boost. Few are  
complaining of too much rainfall at  
present.

Perry Dannelley of Douglas, Ariz.,  
is visiting his sisters, Mesdames V.  
Vogel and A. A. Brooks of this city.

Mrs. A. A. Gooch of Hamilton is  
visiting her sister, Mrs. Kate Read,  
this week.

It is against the law to employ any  
woman in Portland, Ore., in any mer-  
cantile establishment for more than  
eight hours and twenty minutes in any  
one day nor more than fifty hours in  
any one week.

Every woman in India who has lost  
a relative in the late war will receive  
a portrait of Queen Mary of Great  
Britain.

Because the growth of trees often  
make cement filling of cavities inef-  
fective to prevent decay, a Rhode  
Island man has invented a wooden  
filling and dictated his patent to the  
public.

A damp woolen cloth will pick up  
small pieces of broken glass.

**Grove's Tasteless chili Tonic**

Mrs. Read has received word that  
her son, C. W. Read, who was the  
proprietor of the Palace Drug Store  
before he entered the service of Uncle  
Sam, is in the Naval Base Hospital  
at Mare Island Cal., with influenza.  
We are glad to report that he is  
getting along nicely.

**No Worms in a Healthy Child**

All children troubled with worms have an un-  
healthy color, which indicates poor blood, and as a  
rule, there is more or less stomach disturbance.  
GROVE'S TASTELESS chili TONIC given regularly  
for two or three weeks will enrich the blood, im-  
prove the digestion, and act as a General Strength-  
ening Tonic to the whole system. Nature will then  
throw off or dispel the worms, and the Child will be  
in perfect health. Pleasant to take. 60c per bottle.

# BURKBURNETT OIL FIELD

## "Wonder of Twentieth Century"

### Poor Folks Make Fortune---Dazzling Dividends Expected.

Did you read the write-up in the Fort Worth, (Texas) Record, Thursday, January 23? It was an article about the Burk Burnett oil field. The writer in reviewing activities in that wonder field, gives names of companies which recently have paid big dividends. Read this article—it tells you what has been done in that great oil territory. The article, in part, reads:

"The Burk Burnett oil field is proving the wonder of the twentieth century. The Fowler gusher, brought in July 26, 1918, precipitated a riot of development unparalleled in the history of the petroleum industry. More than \$25,000,000 was invested in 350 oil companies, big and little, in five months. Oil Men declare that when all wells completed and under way since August 1, 1918, are producing to capacity, the Burk field will be making between 180,000 and 200,000 barrels per day, worth, at the posted price of \$2.35 per barrel, an aggregate of \$446,500 per day, or \$13,355,000 per month, or \$150,740,000 per year. \* \* \* So far as public announcements have conveyed such information, or as producing companies have consented to answer queries, it is known that at least fourteen dividend-payers have mailed out large profits to their stockholders in the last sixty days, as follows:

HAMMOND NO. 1	226 PER CENT
KAP, CITIZENS, BIG POOL, COLUMBIA, COUCH-WINFREY, HAMMOND	
No. 2, EACH	100 PER CENT
WALKER	50 PER CENT
BIG THREE	25 PER CENT
FLOYDADA	25 PER CENT
WICHITA OIL & GAS	25 PER CENT

"Not a one of these wells was brought in before September 1, 1918. The list is expected to be greatly increased within a short time. Many other wells—which are on the sand—undoubtedly will pay big dividends and some of them are expected to pay enormous profits.

"It is believed that an era of dividend paying, more dazzling than ever recorded by a mining camp or an oil field is soon going to start in Burk Burnett.

"\* \* \* A distinctive feature of the Burk success has been that thousands of comparatively poor people made fortunes out of property leases, royalties and stock in hundreds of wells."

We are going to drill for a big gusher in the great Burk Burnett oil field—the wonder oil district of the age. We are on our toes and can hardly wait until we get the drill going down, down, to what we confidently believe will be a big gusher of oil. We expect to get a real sure enough oil well that will make from 500 to 3,000 barrels per day. If we get only a 100-barrel well—well, figure for yourself how valuable an interest in this company would be.

We have an eight acre lease right in the Burk Burnett field. There is room for at least four wells. Then we have 40 acres leased in Callahan County, Texas, where deep test are going down all around us; we also have an 80-acre lease in McCulloch County, Texas near the Eastern Oil Company, which is down 1,200 feet. Others are drilling near our holdings.

We want to start drilling on our Burk Burnett holdings right now. We don't want to wait another day. We need a little more money for this purpose. Our Burk Burnett lease is approximately three-fourths of a mile from the Fowler well, one mile from the Marine well, one mile from the Helen Elizabeth well; only a short distance from the Ray Hammond well. These wells are reported making from 800 to 1,400 barrels of oil per day. Geologist reports that trend of oil in this field is toward the bend in the river right near our wonderful lease. Big chance of getting a real gusher.

Stop and think a minute of this wonderful field. Who can tell how big it will be? Remember you will have no one but yourself to blame if you miss this chance of making money with us. Small capital—only \$90,000 at \$1.00 per share, par value. When we drill in a 1,000-barrel gusher the returns to our stockholders should be at least 100 per cent per month—will you be among them?

The officers of this company are known as reliable business men: Mr. L. C. Tharpe was in the automobile business in Oklahoma City for many years, and the State National Bank of Oklahoma City will furnish information about his ability and integrity. Mr. Tharpe is a trustee for our company. Mr. W. R. Bass is widely known in Texas as a practical oil man with a successful record. He is director in two other companies producing oil. Mr. Bass is manager of the company. The Brantley-Draughon Business College and the American National Bank of Fort Worth, our depository, are his references.

The oil game is a fast business—those who wait seldom, if ever, make any money. Those who act quickly have the best chance of making big money. Don't wait a minute longer. Fill out the coupon below and send it in right now. We reserve the right to return your check in event our limited amount of stock is oversubscribed.

Simple Things Please Children—And  
Simple, Loving Methods Are Successful in Controlling Them.

Suggestions by mothers who have  
been kindergartners. Issued by the  
United States Bureau of Education,  
Washington, D. C., and the National  
Kindergarten Association, 8 West  
Fortieth Street, New York.

(By Mrs. Isabel S. Wallace)  
How many things can be made by  
folding ordinary wrapping paper! Soldier  
caps for small boys keep them  
amused a long time. A house and  
furniture with a few cut out dollies  
make such busy little girls. After all  
it is the simplest things that make  
children happiest.

When at my mother's home one  
time my little girl folded and cut a  
house, windows, doors and all. Her  
grandmother was delighted and the  
little one said, "We'll keep it to show  
grandpa and I guess he'll say I am a  
smart Tottie." With a little thought  
mothers can learn how to fold and  
teach their children to fold a number  
of things. It is excellent practice in  
accuracy and neatness, besides afford-  
ing the joy of making something.

In a regular kindergarten all the  
sets of blocks, which are of different  
sizes, are kept in boxes with covers,  
and each child puts his away carefully  
and correctly or else the cover will  
not fit. Then all the sets are col-  
lected and packed in a closet by a few  
of the children. Children love to help  
keep things in order and enjoy doing  
it.

At home, also, a child should have  
a place for his toys. A playroom is  
ideal, but if this cannot be provided,  
some place surely can be found, even  
in a small flat, which a child may  
have for his very own to keep his  
toys in. From the age of sixteen  
months, I insisted that my little girl  
put her toys away neatly. We began  
it as play, and now it is a habit. Of  
course, sometimes she is in very much  
of a hurry to do something else, but  
the toys are put away in the end. We  
made her a large drygoods box, stand-  
ing up on end. My husband put cheap  
castors on it and two shelves across  
it. There all the small toys are kept.  
The blocks have their own boxes; the  
small things have baskets; and crayons,  
pictures and papers go into a  
box with a cover. All of them fit into  
the shelves; also the animals, dolls,  
trunks, washtubs and many other such  
things. The picture books have a  
compartment in the large bookcase.  
"A place for everything and every-  
thing in its place," when little folks

have finished playing, makes a good  
rule.

One day when my child was not at  
home, a little girl came in for a visit.  
I took her into the playroom and left  
her there very happy. After a short  
time she went home. When I re-  
turned to the playroom I found every-  
thing so scattered over the floor that  
there was hardly room to walk. The  
next time the little girl came, I had a  
talk with her. I have made it a rule,  
and it is a hard rule to keep, for some  
mothers are offended, that if a child  
will not help put away the toys care-  
fully when he is ready to go home,  
then he cannot come back to play  
with that toy again until he is ready  
to do what I ask. My little girl was  
playing at the neighbor's a few days  
later. When it was time to come home  
I went for her. The children were  
cutting out pictures and had made a  
dreadful mess on the table, chairs  
and floor. I told my little girl to help  
pick them up before putting on her  
things. The mother said: "Oh, that's  
all right, Sadie never picks up scraps;  
I do that. So don't make your little  
girl do it." And my child smiled and  
calmly said, "It's all right, Mother,  
I don't have to pick up here." Then  
I told the mother about my rule and  
explained that it wasn't mere cranki-  
ness on my part, but a desire to form  
good habits in the children and to de-  
velop character.

All children are naughty at times  
and it is so hard to know how to deal  
justly with them. One day when I  
was very busy my little girl came in  
from playing in the garden. I sup-  
pose she was tired and hungry, but  
she did not herself know what was the  
matter. She began to try a new kind  
of naughtiness, lying down on the  
floor, kicking and screaming and say-  
ing naughty things to me. I was  
amazed, and quite puzzled as to how  
to treat such a proceeding. At first  
I ignored her, but she kept it up. I  
asked a few questions in a kindly way,  
but that seemed to fan the flame.  
I was busy, in a hurry, warm and  
tired and began to get very angry.  
Nevertheless I realized that if I could  
not control my temper, I could not

expect a 5-year-old child to do so.  
So I pondered over what to do. Fi-  
nally I went over and picked her up  
and carried her to a chair where we  
sat, or flopped down, as it was no  
easy task carrying a kicking, crying  
mass of humanity. I never said a  
word, but rocked her quietly. After  
a little while she stopped, and I be-  
gan to sing softly. She almost went  
to sleep. Then I knew she was simply  
over-tired and I was so thankful that  
I had not indulged my own temper in  
any way. After a short time we had  
lunch and then she went to bed for  
her afternoon nap. She slept hours,  
repairing the wasted energy and her  
nerves in blessed sleep. She has never  
tried that trick again.

I find a word of praise goes so  
much further than blame, and the  
bright eyes give back such a grateful  
look.

Last autumn my little girl began to  
go to kindergarten. She loves the  
work and is always so proud to show  
what she has made. I was very an-  
xious for her to go, as she was shy  
and needed to learn "team work" and  
to rub up against other children in or-  
der to polish off the corners.

The kindergarten is the link be-  
tween home and school. There is  
more freedom, more spirit of com-  
radship, more play than in the class-  
room, and to me it seems like ad-  
ministering a rude shock to usher a  
child into definite studies fresh from  
the home. By attending kindergarten,  
the child becomes familiar with a  
school building, school hours and nec-  
essary rules; he develops courtesy and  
kindness toward others, and enjoys  
listening at story time. He also likes  
working and playing in unison with  
others, and he learns to control the  
whole body. No school is complete  
without a kindergarten.

Please pass this article on to a  
friend and thus help Uncle Sam reach  
all the mothers of the country.

Mrs. Joseph Spickler and her 14-  
year old daughter, Evaline, were con-  
testants in a oratorical contest held  
recently in Marysville, Pa.

### RESOLUTION ADOPTED BY FARM LOAN ASSOCIATION

The following resolution was unani-  
mously adopted by the Cameron Na-  
tional Farm Loan Association, of  
Cameron, at a call meeting of its  
stockholders, January 25th, 1919:

Be it resolved:

1. That we oppose the repeal or any  
amendment, change or modification  
of our homestead laws, or the submis-  
sion of a constitutional amendment for  
that purpose by this legislature.

2. That we deem it unwise and dan-  
gerous to the success of any Banking  
institution for its officers to engage  
in politics, and we, as members of  
this Association, and as stockholders  
in the Federal Land Bank at Houston,  
earnestly and solemnly protest against  
the activities of the officers of said  
Bank in the present campaign against  
the homestead laws of this state.

3. That the great volume of litera-  
ture distributed throughout the State  
by mail and other methods, together  
with other campaign activities, in-  
duce us to believe a huge fund has  
been raised for the campaign. This  
fund was not furnished by the farmers  
of the state; we cannot believe it was  
furnished from the private funds of  
the officers of the Federal Land  
Bank at Houston, and we know, in  
reason the funds of the Bank were not  
used for that purpose, and with this  
eliminated, our curiosity is aroused to  
know from what source the campaign  
fund came.

4. That we learn with humiliation  
and regret that a few of our brother  
farmers have passed resolutions, at  
various farm meetings, favoring an  
amendment of our homestead laws.  
We do not believe such farmers were  
instructed or inspired by the farmers  
whom they represented, or acted up-  
on their own judgment in passing such  
resolution, but we do believe they  
were misled, deceived and persuaded  
to do so by those who are not farm-  
ers.

5. We believe the same methods  
are now being employed in Austin to  
mislead and deceive our senators and

representatives, and to persuade them  
to submit to constitutional amend-  
ment to amend our homestead laws;  
and we urge that each of them be  
firm, be manly, be patriotic, be  
courageous and vote against the sub-  
mission of such amendment.

6. That we endorse and commend  
the brave, manly and patriotic posi-  
tion taken by the Hon. Barry Miller,  
of Dallas, and other members of the  
House and Senate in opposing all at-  
tempts now being made for the sub-  
mission of such amendment.

That One Thousand copies of this  
resolution be printed, and that a copy  
be furnished the Federal Land Bank  
at Houston, the Honorable C. A. Led-  
dy, general attorney for said bank, at  
present sojourning in Austin, to our  
Senators and Representatives, to the  
Farm and Ranch, to our county papers  
and to the various daily papers of the  
State

J. S. Barmore,  
President,  
H. M. Hefley,  
Secy.-Treas.

### SAYS HUN MUSTARD GAS SHELLS COOKS THE FLESH

Camp Sherman, Ohio.—"Mustard  
gas shells which the Huns used in  
many instances cooked the flesh,"  
said William Arnold, Penn. Ill., Com-  
pany D, 47th Infantry, while recount-  
ing an engagement with the Germans  
near Verdun.

"When the enemy made an attack,  
we adjusted our masks, but the gas  
was so deadly poisonous that it scorched  
our hands and necks. If a man  
failed to get his mask on in time,  
nine times out of ten his face would  
be badly burned. The effect resem-  
bled a bad case of smallpox," he said.

Private Arnold is in the base hos-  
pital here recovering from shrapnel  
wounds in both legs.

Women and children from a larger  
portion of workers in agriculture in  
Germany than in any other country  
Of the total of 15,000,000 agricultural  
workers 8.3 million are women.

Keeps **PERUNA** In the House  
All the time

Breaks up  
a Cold.  
Good for  
Bronchial  
Inflammations.

Mr. Robert McDougall, R.  
R. No. 6, Liberty, Indiana,  
writes:

"I wish to state that I always  
keep Peruna in the house. I  
think it is a good medicine to  
have on hand. If I commence  
taking a cold, I take Peruna and  
it breaks it up for me. It is  
also good for the Bronchial  
Tubes."

Peruna has served the Amer-  
ican people for more than forty  
years. Those who know its value  
always have it at hand. Why  
not you?

Those who object to liquid medi-  
cines can secure Peruna Tablets

# Giant Duke Owns Seven Tracts

## 305 Acres

Duke No. 2, one of the Biggest Gushers in Texas Field Friday Was Spouting Oil 300 Feet over Derrick Braswell in, Extends the Wonder Duke Oil Field To About Three-Fourths Mile Of

## Giant Duke's Choicest Drilling Site

Looks Good  
Proven Good — **Buy Now**

SHARES \$10 EACH

CAPITAL \$100,000

### Two Choice Drilling Sites

Tracts Nos. 1 and 2 in the Duke and Knowles Field.

Tract No. 1—10 acres, 1 3-4 miles of Duke and Knowles; 3-4 miles Braswell and 1/4 mile of Gates well.

Tract No. 2—15 acres 2 miles north of Magnolia Davis well; 1 1/2 miles south Magnolia Foster well.

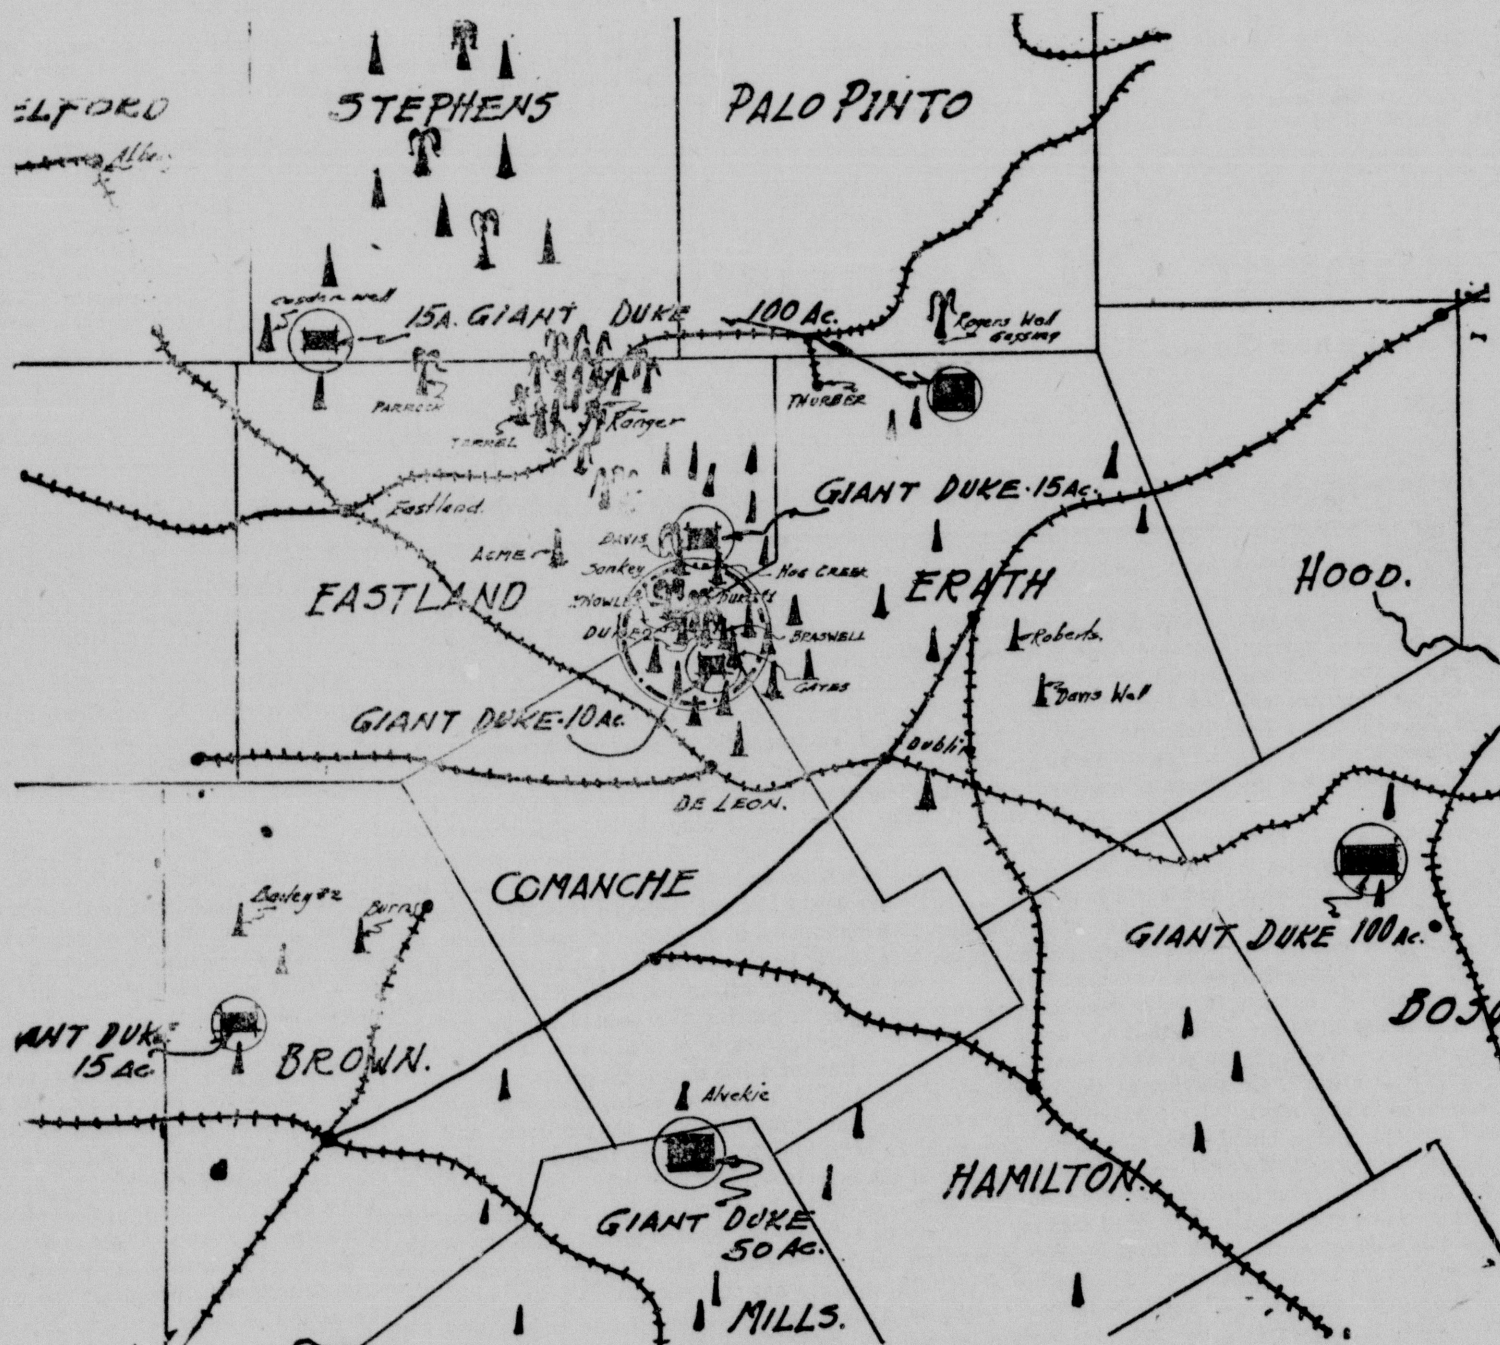

Tract No. 3—15 acres southwestern part of Stephens county, 3 wells drilling, 3 sides.

Tract No. 4—15 acres 6 miles Bailey No. 2, ready to come in; 5 miles Burns well; 3-4 mile from drilling well on the south.

Tract No. 5—50 acres north end Mills County, 2 miles Luckie well, drilling, gassing.

Tract No. 6—100 acres north end Erath county, near R. L. Rogers well. This well making strong gas, expected to be one of the big producers of the field as soon as drilled in. Also T. & P. Company drilling two wells on the west—Big Jack and Franklin drilling on east.

Tract No. 7—100 acres Bosque County, 2 1/2 miles well to be drilled soon, derrick built, rig and fuel on ground.

Shareholders get interest in 305 acres and in All Wells

With pronounced oil formations a number of these wells surely will strike the Big Pay Oil, making our lease values like Hog Creek, where bids of \$5,000 for 100 shares did not get the stock.

### What One 5,000-Barrel Gusher Will Do

Will yield for the Co. \$8,000.00 per day.

Will yield Investor \$8.00 per day for each \$100 invested.

VOLUME XLI CAMERON, MILAM COUNTY, TEXAS, THURSDAY, FEBRUARY 6, 1919 NUMBER XL

## NEED OF SANITATION IN TEXAS SET FORTH

Sanitary Engineering Bureau of State Health Department Makes Report.

For the continuation of the work which has been begun by the Bureau of Sanitary Engineering of the State Board of Health, and for the organization and support of a bureau which will be able to render necessary aid and accomplish results which will be of great benefit, the report filed by the bureau makes the following recommendations:

State supervision of water supplies; adoption of a State plumbing code for State buildings and incorporated cities; housing code for cities; grant cities, towns and districts State aid or State aid or State loans for sanitary improvements; a swimming pool law; civil service for department employees and a force commensurate; traveling laboratory; portable cholera outfit; exhibit experimental station; reference library and the organization of a reserve corps to the bureau.

"Sanitation, the establishing of conditions favorable to health, abating of menace and preparing against disease is probably one of the greatest factors in reducing mortality," says the report.

"The future is in the hands of those who pay the price. The field of sanitation has been barely scratched. A fair start has been made in the abatement of stream pollution, but the State of Texas has thousands of miles of water front and the field is a large one. Soil and air pollution should receive like consideration. Cities are able to and should work out most of their sanitary problems, but the small towns need help. It is usually the cities that call for help. Fake sanitary methods and appliances should be guarded against."

The report further says that sanitary improvements were and still are most sorely needed in a number of Texas towns, especially oil towns. These towns are financially handicapped, according to the report, and should be accorded either State aid or State loans through necessary legislation.

Since the anti-stream pollution act has been in effect, January 1, 1917, report is made that an unprecedented record of sewerage treatment plant construction has followed, until, at the present time, over 160 towns and cities have either started construction or have their plants completed and in operation. The bonded indebtedness of a number of cities and towns has made it difficult to secure the necessary funds for making the improvements. It is reported that there are still several towns financially handicapped at the present time.

"Great stress has been laid on the value of public sewer systems in relation to the public health, and it has been the policy of the bureau to further this construction wherever possible," says the report. "The results as a whole have been very gratifying. A number of towns in the state, however, antedate the time of Moses in the method of night-soil disposal. A sewer system, when properly installed, is the cheapest kind of health insurance."

With reference to the water supplies, the report says the supplies in a number of communities are not safe at all times. It is fully as important to furnish safe water as it is to require pure foods. State supervision for water is urged for the reason.

Capt. Lee Sens of Cameron arrived in this city Tuesday night, having received his discharge from the service several days previous. Captain Sens, is a son of Constable Charlie Sens, and has made a most commendable record since entering the service through the first officers' training camp at Leon Springs, in the spring of 1917, where he made his commission. Since being called into service nearly two years ago Sens has been stationed about over this country engaged in preparing men for overseas duties. Although he did not get to see foreign service he tried to get over at several different times and made good in the service of Uncle Sam in every sense of the word.

## MILAM DELEGATES TO DALLAS MEETING

Sixty Citizens From This County To Attend Meeting to Discuss Cotton Acreage in 1919.

Sixty delegates were appointed last Tuesday at a meeting of the Milam County Council of Defense held in the court house at Cameron to attend the state meeting of that organization which is to be held in Dallas next Tuesday, the purpose of which is to consider the big question of reducing the amount of cotton to be raised by the farmers of Texas this year. These representatives go to Dallas in response to and in cooperation with recent urgent appeals from the Department of Agriculture that the farmers plant less cotton and more foodstuffs and feed for the coming year. This question will receive thorough consideration at the meeting.

The demand for less cotton and more foodstuffs as an appeal to return to sound farm practice after emergency measures of war. The Department of Agriculture at Washington declares that there is no cause for alarm as to the ability of American agriculture to hold its part of the world trade. It is estimated that the European countries will demand a large supply of foodstuffs for a year or more to come.

The Texas farmer, the Milam County farmer, it is understood, is requested to plant enough food and feed, in addition to his cotton, to care for his family and livestock. Peanut production, important during the period of the war because of its oil, should be made smaller. Increase in dairy cows, beef cattle, some increase in hog raising, sheep and poultry is declared to be sensible as a live stock program.

The following delegates who will leave Cameron next Tuesday on the 1:15 a. m. Santa Fe will arrive in Dallas about 9 o'clock a. m.:

A. N. Green, T. F. Hardy, R. L. Batte, B. P. Atkinson, A. H. Baskin, J. K. Freeman, H. H. Camp, H. L. Yager, M. R. Looney, J. A. Peel, W. W. Cox, W. A. Wilkerson, C. Saller, C. A. Davis, R. B. Rylander, J. R. Fraim, S. W. McLarran, J. S. Barmore, E. A. Camp, J. F. Coffield, S. G. Gilliland, Geo. Banzhaf, A. W. Willis, W. N. Moody, Frank Kolba, H. F. Smith, Jr., W. J. Smilie, J. P. Woodall, I. Looney, E. Vogelsang, Jr., V. L. White, T. J. O'Neill, W. S. Lamkin, E. A. Flinn, J. B. Rogers, Frank Marek, T. S. Henderson, Ed Cahill, P. H. McKinney, Jr., H. C. Meyer, Jno. A. Smith, J. F. McAtee, Will Davis, Sam Clement, Preston Graves, J. O. Newton, Chas. Moore, S. Walshak, J. W. Garner, R. L. Hale, Gus Backhaus, Geo. Doss, Ed Simms, A. L. Lensing, Robt. Isaacs, Steve Marak, L. F. Graham, W. F. Whiteaker, W. A. Bradley, Ed Frazier, H. L. Atkinson and J. S. Jacobs.

## TRUETT BLAYLOCK IN FAREWELL TO FRIENDS

On the eve of his departure for service again after a thirty day furlough from his ship, Truett Blaylock entertained a few of his friends at his home Monday night. A pleasant evening consisting of music, toasting marshmallows, peanuts and fruits, with a course of sandwiches, salad, and hot chocolate at the end was enjoyed by all present. Truett, son of Rev. B. B. Blaylock, left for his ship, the Princess Matocka, last Tuesday night. From Cameron he went to New York City where he expected to meet his ship. Truett is now making an effort to get out of the Navy.

## Robert McLane Sent Overseas Again

Of all disappointments to a soldier boy these days perhaps the hardest is to be led almost home only to be turned around and shot back to service in France. Robert McLane son of R. A. McLane who lives near Cameron, lately landed at Hoboken, New Jersey, and thought he was in line for a discharge and that blissful journey back home. A letter received by his father last week, however, tells of young McLane's departure for France again.

## AMERICAN HARVESTER IN FRANCE

This photograph gives an interesting view of an American three-horse-drawn harvester machine being used in a wheat field in France.

## AMERICA SUNDAY IS SCHEDULED FOR 9TH

Request From War Loan Headquarters For "Save and Have" Talks Observed Locally.

Next Sunday is America Sunday to be observed in the churches and Sunday Schools throughout the Eleventh Federal War Savings District. Pastors of churches in Texas, Oklahoma, New Mexico and Louisiana will deliver sermons on the text, "Save and Have," pointing out the continued necessity of saving money and lending it to the government in the purchase of War Savings Stamps and other government securities.

In keeping with this program the local Baptist church pastor, Rev. B. B. Blaylock, announces that preparations will be made at that church for the "Save and Have" sermon. Special music, and in addition, several talks by some of the citizens of Cameron. Rev. H. R. MacFadyen, pastor of the Presbyterian church, says that he does not think his church will be in a position to observe America Sunday next Sunday, according to the War Loan Headquarters request, on account of having made other preparations. Rev. W. G. Harbin, Methodist pastor, was out of the city at the time of this writing and it is not known the exact plans of that church for next Sunday.

"Three of the biggest factors in the war savings work are the banks, post office and churches. I am delighted with the response of ministers and Sunday School superintendents of the district to the government's request that they observe America Sunday," Frank M. Smith, Federal District Director of War Loans, declares. "Replies have been received from more than 7,820 ministers, saying that they will deliver a special sermon next Sunday on the science of intelligent saving and wise spending."

## Revival Culminates in Union Meeting At Baptist Church.

Methodists, Baptist, and Presbyterians came together last Sunday night at the Baptist Church in a union meeting which was the culmination of special religious activities going on in Cameron for the past month. Two weeks of revival following by a week of union prayer meeting at the Presbyterian Church was succeeded last Sunday by a sermon by Rev. H. R. MacFadyen, Presbyterian pastor, on "Christian Stewardship." A large attendance at the meeting heard, in addition to the excellent sermon mentioned above, interesting talks by William Henderson and County Attorney Roy Baskin on the importance of tithing. Special music was afforded which was enjoyed. Rev. W. G. Harbin, Methodist pastor acted as master of ceremonies for the meeting.

Hayden Lawrence left last Saturday to attend a business college for a commercial course. From here Hayden went to Waco to investigate. At the time of his leaving he was undecided as to whether he would go to school in Waco or Dallas.

## BANKS AND BANZHAF GET THANKS VOTE

Support Given Pig and Corn Club by Cameron Banks and County agent Commended.

At the regular meeting of the Cameron Commercial Club last Friday night a special vote of thanks by motion of Hon. T. S. Henderson was extended to the banks of Cameron and to County Agent Geo. Banzhaf for hearty support and zeal displayed toward the making of the Boys' Pig and Corn Club a success about Cameron and the vicinity. The banks contributed largely toward the success of this undertaking by furnishing the money with which to buy the pigs, while Mr. Banzhaf has worked faithfully to effect a large membership and enthusiasm among the boys.

Interesting talks about the progress being made for better roads in the Buckholts, North Elm, Marak and Yarrington communities by W. W. Chambers and J. T. Parma were heard by members present.

W. W. Chambers offered the opinion that Buckholts would soon be in a position to have a vote upon a bond issue for good roads, and suggested that a speaker from the local Commercial Club be sent to the next meeting held for the purpose of Buckholts. Mr. Chambers also advised that a speaker would be sent to North Elm. J. T. Parma was of the belief that the bond issue would go through at North Elm, Marak, and Yarrington. Hon. T. S. Henderson was appointed by the chair to attend the meeting held at North Elm, if possible.

Mr. T. S. Henderson announced before the meeting that an address will be given at the court house, Saturday February 8, by Mr. Leddy, of the Federal Farm Loan Bank. The speech as announced, will deal with the proposed changes in our present homestead law in Texas.

Members present at the meeting last Friday night were as follows:

Robert McLane, T. B. Wooten, C. W. Lawrence, W. G. Gillis, T. S. Henderson, O. M. Smith, J. T. Parma, E. A. Flinn, T. F. Hardy, J. W. Coleman, W. W. Chambers, B. P. Atkinson, George Graves, Frank Lesovsky and Monta Thomas.

## Red Cross Notice

Enrolling Red Cross nurses are desired for instructors in the Red Cross course in Home Hygiene and care of the sick.

The Division office is preparing to organize and conduct classes over the whole territory. The Communities where there are no resident nurses will be taken care of by visiting instructors.

Nurses who are willing to act in this capacity will find a large field open to them, a very interesting and worth while piece of work to be accomplished and will thus be able to extend their Red Cross activities.

Any nurse interested in this work will kindly communicate with the Headquarters of the Division, Frisco Building, Saint Louis, Missouri, directing communications to Dept. of Nursing.

## UNIVERSITY-A. & M. SEPARATION PROPOSED

Governor Will Send Agreed Plan to Legislature In Message This Week.

Governor Hobby said last Saturday that he expects to send a special message to the Legislature late this week carrying the agreed plans for the separation of the University of Texas and A. & M. College and the scheme for a special tax to support the higher institutions of learning.

It was learned tonight that the Governor and the Attorney General have accepted the plans agreed upon at this week's joint meeting of the regents of the University and directors of the A. & M. College. Dr. R. E. Vinson, president of the University, discussed the matter with the Governor today and immediately after the conference issued a call for the joint subcommittee to meet in Austin next Tuesday to put the final touches on the agreement.

The subcommittee consists of George W. Littlefield, Austin; J. A. Kemp, Sherman, on the part of the University, and F. M. Law, Houston; L. J. Hart, San Antonio; and J. I. Guion, Ballinger, for the A. & M. College. Judge Guion retires from the A. & M. board next week and will be succeeded by R. L. Young of Harris County.

Under the plans to be submitted, the University and A. & M. College will be completely divorced and the University fund divided, the University retaining 66 2-3 per cent thereof and the A. & M. College getting 33 1-3 per cent of same. This is agreeable to both institutions.

A program for dividing the land, securities and other assets composing the permanent University fund is devised.

All the higher institutions of learning will be cared for in the scheme to be submitted to the Legislature. It will call for an educational tax of possibly 20c on the \$100 of assessed values, which will take care of the University, A. & M. College, College of Industrial Arts, the Junior A. & M. Colleges and the several State Normals. The plan calls for a coordinated scheme of higher education whereby the work of the several colleges and institutions is dovetailed into a progressive, co-operative system.

A constitutional amendment may be necessary to effectuate the proposed system, but with all the institutions in harmony and agreement, its proponents think it will easily be adopted by the people.

## GET SOLD HERALDS ISSUES TO "READ UP"

Miss Delphia Scott was very much "put out" in her recent sojourn from Cameron because she did not have the pleasure of receiving a single copy of the Cameron Herald to keep her company in her absence from the beloved city.

"I haven't got a single copy this year", wailed the fair lady as she appeared at the Herald Office last week whereupon she made an urgent demand for a copy of every back number for the year 1919 and declared that she would go right home, settle down in the old Morris chair, and read every one of them from tip to tip and top to toe. The force hastened to comply with the demand.

The books revealed that Miss Delphia's subscription had expired on January 1, 1919. And she didn't hesitate to sign the check of a dollar and a half necessary for the companionship of the Cameron Herald for another year.

Geo. Stratton and Fred H. Harvey of Waco, David De Gaffeuried of Chilton and Bert Ray of Buckholts came down Thursday for a big hunt. While in the city they were the guests of Penn Wolf.

Miss Sallie Kate McLane is visiting Mrs. L. H. Krough in San Antonio.

W. A. Smith of Dallas spent a few days in Cameron this week.

## BANZHAF IS READY FOR CLUB MEMBERS

County Agent Addresses Letter To Cameron Commercial Club And Urges Action.

The Cameron Commercial Club and the Bankers of Cameron interested in hog raising:

The three banks of Cameron desiring to assist the boys in the trade territory of Cameron in a substantial way, is arranging through out County Agent, Geo. Banzhaf, who is now organizing Boys Corn and Pig Clubs, in the trade territory of Cameron, to distribute among farmer boys between 10 and 18 years of age, inclusive, who can arrange to properly care for them, one or more car loads of well bred Poland China gilts.

The gilts will not be given away but sold at actual cost, either for cash or terms to suit or on 12 months time at 10 per cent interest. The boys own note, with the gilt purchased, will be the only security required. The hog will be inoculated to prevent cholera, before being distributed, and bred to a registered male.

These gilts will be bought through a government agent and it is estimated that they will cost between \$35 and \$40 delivered at Cameron. Any son of a reputable farmer living in the trade territory of Cameron, may send his name on the blank below, or come to either of the banks in person, if he desires to get one of the gilts.

It must be understood that the banks are not in the hog business and therefore have no hogs to sell, but these banks will assist the boys in purchasing these hogs from reputable breeders.

Any boy interested in the pig club work should apply at either of the banks, or see Mr. Banzhaf, either will be glad to furnish further information if desired.

All applications will be considered in the order received and shipments will be made as soon as a car load can be arranged for and applicants are ready to receive and properly care for their hogs.

Now boys get busy if you are interested in raising fine pigs. Clip off the application below, fill out and send or take it to the bank at once, and we will see how soon we can get up a car of hogs. Besides teaching you how to do business with the bank you will be helping to grow meat to feed your country and make a neat sum of money in addition.

## Application For Gilt.

I am interested in your plan to help the farmer boys of the trade territory of Cameron, to start in the hog business and desire to take advantage of the offer.

The following information will let you know who I am:

My father's name.....  
My school teacher's name.....  
My address.....  
My age....., I reside.....  
.....miles from.....  
.....on the.....road.

Applicant.....

## Speaking At Court House

Charles A. Leddy, General Attorney of the Federal Farm Loan Bank of Houston, Texas, will speak at the Court House in Cameron Saturday afternoon February 8th, at 2 o'clock, p. m. on the subject "The Federal Farm Loan Bank and the amendment to the Homestead Law."

Mr. Leddy authorized us to say that he will answer the criticism contained in a circular issued by the Cameron National Farm Loan Association.

A cordial invitation is extended to the general public and the farmers of Milam County, are especially invited to hear a full discussion of the Federal Farm Loan System.

Come out and hear a fair discussion as to the reason why the Texas homestead law should be amended so that farmers may obtain the same benefits from our rural credit system that are enjoyed by the farmers of every other state in the Union.

Committee.

Thos. N. Herring, Local Manager

Cameron, Texas, February 6, 1919

The Del Rio News advises that those who are good in themselves are the least suspicious of bad in others. That's a fact, and it is also a fact that they are generally the easiest marks for others.

Speaking of lynchings, have you noticed that here in America only the negro rapist or murderer of a white woman is made the victim of the mob, while in Germany political factions take it time about lynching their political opponents?

Current European history right now is made up of bolshevism, strikes, destitution, destruction and death. Human suffering degradation seems to have reached the limit over there. In America we are safe up to the present with the exception of being victimized by the profiteers. Unless profiteering is curbed we may look for the horrors of Europe to make their appearance among us.

Kit Robinson tells us in the Kosse

Cyclone: "The eyes of the world are now turned toward the oil fields of Texas. New territory is being brought in every week, and hundreds of heretofore poor people are stepping into the millionaire class." Your optimism is beautiful to behold, Kit, but you fail to tell us into which class you have stepped. We are watching our step.

Education is receiving some well directed attention at the hands of the state solons. Representative McDonald of Grimes county has introduced a bill providing equal pay for male and female teachers. This is as it should be. We have never yet understood why a woman should do either a man's work or the same work as a man and receive less pay than a man. If the work is the same; if it takes the same effort to accomplish it; if the result of the labor is the same; what, in the name of common sense, has the question of sex to do with the amount of pay? Governor Hobby recommends that half a million dollars be appropriated from the general fund for 1920 to raise teachers' salaries. He is right in saying present salaries are so low to be a hindrance to proper development of the educational system. We want to see teachers of both sexes get more pay and equal pay.

### GERMANY'S SHORTAGE

History may decide that, all things considered, Germany's fatal shortage was neither in white flour nor in copper nor in rubber. It was in humor. The Allies could never escape the feeling that, in addition to being terrible, Germany was also rather ridiculous. It was a certain disconcerting Englishman who pointed out to Germany at the start that, even in her invasion of little Belgium, the spectacle she presented of a huge, whip-cracking bully striding into a room and stumbling over the doormat had in it a disastrous element of the comic. But then, Germany celebrating the fall of Verdun, Germany pounding nails into her wooden Hindenburg, Germany glowing with pride over her non-combatant fleet, was always a little absurd.

And the Kaiser! The Kaiser all

dressed up like a Christmas tree ready for the triumphant entry into the Nancy that never fell, the shining War Lord scuttling out of his realm as soon as his troops were in trouble. Wilhelm, in any country with a sense of humor, would never have been able to play his role out to its ghastly conclusion. He would have been laughed off the stage in the prologue.

And this same lack in these laughless people led them to misread as a symptom of weakness what was really a sign and a source of strength—the puzzling laughter that floated to them across the waste of No Man's Land. They were bewildered by the British. They could never understand the humor of a people who could catch at the Kaiser's sneer and make a fond and jubilant war cry out of "The Old Contemptibles," who could ruin the "Hymn of Hate" for the Germans by learning it themselves and singing it in the trenches with particular relish for the refrain: "We Hate England." And the French, whose gayety had misled the Germans into thinking them negligible and frivolous, proved to be quite a serious people on the hills before Verdun. Then it began to appear that the American regarded himself fully equipped so long as he could go into battle armed with a tooth brush and a grin; and it is probably true that his army laughed more per kilometer than any other army in the field. If the first distant sound of endless Americans on the march seemed at all ominous to Berlin, the threat must have grown when, at last, it was reported from the front that the Yank was the most baffling and most deadly of all offensive weapons—the soldier who fights with a smile.—Stars and Stripes.

### DEATH ALMOST WIPES OUT FAMILY OF TEN

Houston, Texas, Feb. 1.—The seventh death in the family of Jackson Flippen, young section foreman on the San Antonio and Aransas Pass railroad, occurred yesterday at Cheatham when his 75-year-old mother died of pneumonia. Only his 6-year-old widow, 7-year-old daughter and aged father survive of a family of ten.

The Flippen home was destroyed by fire January 5 at Clodine. Flippen and five children, the oldest 6 years old and the youngest twins of 7 months were burned to death. Though terribly burned herself, the wife rushed back into the flaming section house and dragged her mother in law to safety. Pneumonia developed, however, and Flippen's mother died. Her 78-year-old husband is reported very low.

### New Residents from Cameron

Mrs. J. D. Morton and sons, John and Marion Morton, late of Cameron, have moved to Waxahachie, and are at present located at Hotel Rogers. The Mortons have bought the Princess Cash Grocery store and will have associated with them in their business here Mr. O. P. Adams who comes with them from Cameron, and has been their business associate for several years. Mrs. Morton's husband, the late J. D. Morton, who died a little more than a year ago, was a resident of Cameron twenty-two years, and was a merchant and cotton buyer there. The Morton family expect to make Waxahachie their permanent home, and will buy or build a home here in the near future.—Waxahachie Light.

The publicity department of the Red Cross in France is in charge of Mrs. Helen O'Shaughnessy, wife of the former Ambassador to Mexico.

"Your name will echo down the corridors of time." "No, it won't," rejoined Senator Sorghum. "A man goes out of attention quickly these days. Three months after he's out of office he's lucky if he's important enough to be paged in a hotel lobby."—Washington Star.

That is the bitterest of all—to wear the yoke of our own wrongdoing.—George Eliot.

"Ah, many a good story I told under that fine old tree out there." "Oh, yes; I see it is a chestnut tree."—Baltimore American.

The Justice—"You promise to love, honor and obey this man?" Eloping Girl—"I do. Now it's your turn, Dick. Take your hands from your pockets, stand on both feet, throw away that cigarette and don't look so like a fool."—Boston Globe.

Mr. Hoskins—"Look, my dear, Bertie has sent us a weather barometer!" Mrs. Hoskins—"How good of the dear boy to be so thoughtful! Which way do we screw it when we want the weather to be fine?"—American Boy.

My hunger overcame my pocket book And took me down the street, And stopped me at the market Where the butcher sells his meat. I asked him for a little steak, And counted out my coin; Fearing that I'd lack a dime, For the steak he grabbed was loin. He wrapped it in a pound of paper, "Will that be all?" he said. I shoved him every coin I had, It was my all, and fled.

Where He Drew the Line Willie was in a bad temper. His mother had just discovered that there was not a clean night shirt ready for him to wear.

"Never mind, Willie," she said consolingly, "you will have to put on one of your sister's night gowns tonight."

"What, a girl's?" snorted Willie, drawing himself up haughtily.

"Yes. Why not?" asked his mother in surprise.

"I won't wear it," declared the boy. "I'd rather go to bed raw."—Pittsburg Chronicle-Telegraph.

First Officer—"Yes, we were marching over a plank bridge when it gave way and the men fell in."

Second Officer—"And what did you do?"

First Officer—"I ordered them to fall out."

Paw Knows Everything Willie—Paw, what is the difference between relatives, and relations?

Paw—If they are rich, they are relatives, but if they are poor they are relations, my son.

Oh! "It is said here that women talk more in summer than they do in winter," said the old Foggy, as he looked

up from his newspaper. "Do you believe that?"

"Sure, replied the grouch. "The days are longer in the summer aren't they?"

Oh Joy!

"Mrs. Gadder tells me that Mrs. Shopper died a happy death," said Mrs. Gadder. "How did that happen?" "She was crushed to death at a bargain sale," replied Mr. Gadder.

Gladys Floppit thinks modern life is very complicated because she eats chilli at the drug store for breakfast.

Oyster salad may be served hot or cold.

Well educated women between the age of 20 and 30 years are a drug on the labor market in Europe.

### A Tonic Laxative

that will remove the bile from the liver and cleanse the system THOROUGHLY without griping or disturbing the stomach is truly a Perfect Laxative.

### LOYALTY LOAN DRIVE OF TEXAS BAPTISTS

Business Men Organize For State-wide Movement in the Interest of Baptist Schools.

Texas Baptist begin their Loyalty Loan Drive throughout the State, for \$1,000,000.00 Sunday, February 9th. February is to be known as a "Million Dollar Month." They have in the State twelve large schools, including the Southwestern Baptist Theological Seminary at Fort Worth, and Baylor Medical College, Dalls, with total assets of over \$4,000,000. There are 227 teachers, with 5,250 students enrolled this session, up to November 1st. There were 1,126 S. A. T. C. students in the various schools up to their demobilization.

The Baptist General Convention, at its last meeting in Dallas, in December, authorized the issue of \$1,000,000.00 in bonds to be known as the "Loyalty Loan." The object of this Loyalty Loan, as it is called, is to refund all debts now outstanding upon the various schools, at a uniform rate of 6 per cent interest, thereby saving over \$15,000.00 per year.

At the end of ten years all debts will be provided for, or paid, and \$1,250,000 in cash will have been invested in new improvements at the various schools as need may arise.

This method of financing the Baptist school system has been under advisement for more than two years, being under consideration before the war.

The General Campaign Committee appointed by the Baptist Executive Board met recently in Dallas and organized by the election of Mr. M. H. Wolfe as general chairman, Mr. R. E. Burt, vice chairman and Dr. F. S. Groner as executive secretary.

This Business Men's Campaign Committee will be composed of 100 prominent Baptist business men over the state who will have a large part in floating the million dollar loyalty loan. The bonds themselves will be placed through voluntary workers by popular subscription. The bonds will be issued in denominations of \$50.00, \$100.00 and \$1,000.00 bearing interest at 6 per cent semi-annually, and are issued in coupon form, thus enabling the holders to clip the coupons and collect same through their local bank. The commercial value of the bonds are appraised as equal to government bonds by leading business men of the state, because of their being not only guaranteed by first mortgage on \$2,000,000.00 worth of physical property, under sworn appraisal, but also of the moral backing of the Baptists of Texas, numbering some 400,000, and with an organized history of seventy years in business for the Master without defaulting on a single obligation.

#### EX-POSTMASTER THANKS PEOPLE FOR COOPERATION

Judge Ed English, who last week announced the acceptance of his resignation as Cameron's post master, has served faithfully in that capacity for the past several years. Coming into the office shortly after the 1912 presidential election Judge English has witnessed many improvements in the federal mail facilities in this city. He asked the Herald to thank the numerous loyal citizens of Cameron who cooperated with him in securing the new federal post office building in this city and other improvements that he has sought to bring about in his official capacity as post master.

A choice lot of alfalfa hay for sale at Batte's Store.

#### TWO CARS DAMAGED IN SMASH-UP YESTERDAY

A badly mutilated Chevrolet belonging to Wilkerson's Garage and a crippled Ford truck of John Brock's are the results of a smash-up occurring near the high school building yesterday afternoon about 4 o'clock. The two cars collided at the corner in front of the home of R. H. Johnson. The Chevrolet, driven by Walter Walker, was badly smashed up, while the Ford sustained a broken wheel. Several gallons of oil being carried in the truck at the time of the accident were spilled in the street. Neither of the drivers were injured.

Batte's Store sells feed stuff cheaper because they have no hauling charges to pay.

#### KEMP GETS APPOINTMENT AS ACTING POSTMASTER

Jeff T. Kemp of this city last Tuesday received notice from the American Surety Company of his appointment as acting postmaster for Cameron. Mr. Kemp will take charge of the postoffice, according to information, on February 15th, and will serve pending civil service examination. In the meantime the office is in charge of Assistant Postmaster C. P. McGregor, who was appointed by the American Surety Company to take charge upon the acceptance of Judge English's resignation as postmaster, January 29th.

**The Priscillas Meet.**  
One of the most delightful social events of the weeks was last Thursday afternoon at three o'clock when Mrs. Judd Davis entertained the Priscilla Club.

The Priscilla Club is quite a popular organization of the young married women of the town which has existed in the city for many years. Like all the other clubs of Cameron, it suspended its meetings during the war, so this was the first meeting in some months and it was good to meet again in social intercourse.

A very pleasant time was had playing the needle. After this in business meeting the club elected officers for the new year and the following were elected:

Mrs. J. C. Martin, President.  
Mrs. Geo. T. Graves, Vice President.  
Mrs. Albert Triggs, Treasurer.

Mesdams Stanley Boles and Jim Sampson were elected new Priscillas. The club is to meet every second and fourth Thursday and the next meeting is to be with Mrs. R. H. Baskin.

At the conclusion of the meeting the hostess served a dainty and refreshing salad course to her guests. Mrs. Mrs. Hickman of Weatherford was the club guest.

### Plows.

### PLAN CAMPAIGN TO IMPROVE THEIR HIGH SCHOOL

An educational mass meeting was held last Monday night in the Lights Chapel Baptist church (colored) of Cameron, the big purpose being improvements in the industrial department of the colored high school. As a result of the meeting a campaign was planned by the colored people and a committee appointed to raise the sum of \$150.00 for this purpose. The local board agreed to give a dollar for every dollar raised. Prof. A. R. Jefferson, of the colored school, requests that every colored family in the city make an effort to give a dollar. Dr. A. S. Epperson and Prof. L. H. Kidd addressed the meeting with encouragements.

### Plows.

We have reduced last years prices on all plows and middle busters. Now is the time to buy.

Grove's Tasteless chill Tonic destroys the malarial germs which are transmitted to the blood by the Malaria Mosquito. Price 60c.

## WAR PRICES RULES ON FOOD LIFTED BY WILSON ORDER

Removal of all restrictions on margins of profit on foodstuffs except cottonseed products and eggs and cancellation of most license requirements of importers and distributors, effective Saturday, were announced Friday by the food administration on authority of a proclamation signed by President Wilson at Paris.

The following only remain under license: Importers and distributors of wheat, corn, oats, rye, barley and elevators and warehouses storing these grains and rice.

Importers and manufacturers of tributors of fresh canned or cured beef, pork or mutton, cotton seed, cottonseed products, lard butter and eggs and sugar.

Importers and manufacturers of rice, rice flour, wheat flour and wheat milk feeds and cold storage warehouse men.

The margins still allowed are: Retail cold storage and fresh eggs, 7 to 8 cents per dozen; cotton seed lard substitutes at wholesale, 1 1/4 to 2 cents a pound on more than 50 pound package, 8 to 10 per cent on less than 50 pound packages and 5 to 6 cents and 18 to 22 per cent at retail. Wholesale margins on eggs differ according to the number services performed by the wholesaler or jobber.

In addition to the regulations cancelled by the proclamation, all remaining special regulations governing manufacturers and distributors of butter were repealed.

In making the announcement the food administration warned dealers that the provisions of the food control act prohibiting profiteering and unfair practices would be rigidly enforced.

This action by the President virtually brings to an end the activities of the food administration except for the continued control of the excepted commodities, which, officials explained, is necessary either because of contractual obligations of the government or because of the determination to maintain stabilized prices. It was predicted by these officials that most remaining functions would cease before March 1.

## HELP TO BUILD HOMES

Building and Loan Associations May Hold Place Similar to That of Farm Loan Banks.

Cooperation by building and loan associations on a national scale has been proposed to the Division of Publicity Works of the Department of Labor as a means of aiding home building during the next few years.

The retarded building development during the war has left a somewhat serious condition of congestion in many large cities, and almost everywhere the amount of housing is below normal. On the other hand, many workmen who have been working overtime during the war and who have saved their money believe that this is a propitious time to put some of their savings into a home.

The building and loan associations, it is pointed out, can function in behalf of the home builder much as the farm loan banks aid the agriculturist. Certain difficulties are in the way of a national organization of this work, but it is believed that these can all be surmounted.

(Can You Afford to Wait)

Miss Francis Perkins recently appointed State Industrial Commissioner of New York, will receive a salary of \$8,000 a year the highest paid any woman State employee.

The Nebraska State Senate has by a unanimous vote adopted a resolution which favors the enfranchising of women.

## It's Your Move Now

BUT WHEN YOU'RE GETTING SETTLED

in your new quarters, that's where we come in.

There are always a lot of little things necessary to fixing up the new home and we handle just such articles of small hardware as are always essential.

Make it your business to come in at once and let us furnish you. Our stock of shelf hardware is full and complete and bought in anticipation of just such occasions as Moving Days can be.

# Henne & Meyer Co.

Stores At ROCKDALE, CAMERON, THORNDAL, BUCKHOLTS.

## Time and tide waits for no man---

Are you preparing for next winter? Are you going to wait, wait, wait and buy high-priced feed, the same as you are this winter? Think of this! Prepare yourself. Cotton might be six cents next year. Raise feed for your stock, prepare to live at home. If you have fat cows, hogs, sheep and chickens you are independent. You can sell your cotton then at 6 or 20 cents—it is just the same; it is all profit. Make your living at home; have your cotton a side line, then you will change your bank account from red to black, from a note to a deposit slip. Now, this can be done with help of a Silo. The Indiana Silo Company furnishes silos and to prosperity; they have the low price and easy terms, so any one can own a Silo.

Thousands of Commercially Trained Young People Wanted for Service. Need is Great and Demand for Efficient Help Urgent.

Young people! Will you take advantage of this opportunity? War has greatly widened the horizon of American commerce. One of the benefits growing out of the war is the world wide view point of American business men and women. They are engaged and must continue on a larger scale in the production and distribution of commodities for the world. Our fast growing merchant marine is an important factor in the trade development with the foreign countries. Markets are being opened that have never, heretofore, been visited by American Commerce. The volume of American business must increase. The countries destroyed by the four years of war must be reclaimed and rebuilt. Factories, homes and cities must be restored. American mills and factories are being called upon to do this work. There is work for everybody that is trained in business. There will be a small place for the fellow with just hands and feet to offer. "Brains" are at a premium. Are you going to wait and loaf on the job, while others prepare for the desirable places that all mean future successes? Hundreds of ambitious young people are now with us, preparing for this service. Others are entering every day.

The Tyler Commercial College, Tyler, Texas, with its practical and thorough courses of Bookkeeping, Business Training, Shorthand, Typewriting, Business Administration and Finance, Penmanship, Telegraphy and Cotton Sampling and Marketing will prepare you in the shortest time, at the least expense, to take advantage of these opportunities. You can do what others have done. Make a start now. Fill in and mail for large free catalogue.

## Music Helps During "Flu" Ban

During the recent influenza epidemic, concerts and other entertainments outside of the home were prohibited. Salt Lake City quickly found a way of overcoming the ennui resulting from this musical shut-down. For eight weeks the public musical inactivity rested heavily upon this western town. At least so it would seem to the observer who looked only at conditions outside of the homes. Within the homes of these Westerners something rather unusual was happening during this period—the mechanical

musical resources in the homes were being tapped as they never had been before.

The love of music of the community was not quenched by disease or even death. Although forbidden to publicly express this love of the art, they gave full vent to it in their homes, and throughout the community there arose the greatest revival of "music in the home" these people had ever witnessed. While kept indoors the families regaled themselves with all

the opera records they could lay hands on and with all the concert selections of which they could find piano rolls. Thus, what has been a public loss has apparently proven a household gain.

The Detroit Electric Railway Co. has been ordered by the war labor Board to retain in its employ all women now serving as conductors. The Amalgamated Association of Street Railway Employees were also ordered to give the women cards entitling them to work on the cars.

## Ugh! Calomel Sickens; Salivates! Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children as well.

send your paper after your subscrip-  
tion expires, and all papers will be  
discontinued at the expiration of time  
paid to.

Thos. N. Herring, Local Manager

Cameron, Texas, February 6, 1919

When you accidentally overhear  
the gossipers getting strung out on  
somebody else, don't you feel a bit  
relieved that it hasn't come your  
turn yet.

It is said that violators of the law  
along the border are "scared to  
death" of the Texas Rangers. Some  
human beings can only be curbed by  
such fear.

Won't the soldiers from "over  
there" have a hard time trying to  
keep step with their little sweetheart  
when they come back home and be-  
gin to haunt the village sidewalks?

And now Villa the Mexican bandit  
along with Lodge, Weeks, Borah, and  
others also seem to have created an  
appetite for "cussin out" the presi-  
dent. He lately committed himself  
that way.

Jazz dancing has been character-  
ized in a bill introduced before the up-  
per branch of the Texas legislature  
calling for the prohibition as very  
immoral and sensual. No more  
fancy wiggles will feature the visit-  
ing carnivals of Texas if the bill now  
under consideration becomes law.

When Wilson adjusts his "specs,"  
rises up from his seat at the peace  
conference, sweeps the audience with  
a gaze, flaps his foot out in front  
of him, and begins to talk with his  
chin jutted out ahead, somehow those

fellows can't help but keep quiet and  
listen to what he has to say on the  
subject.

Will the political critics never get  
broad enough to at least admit the  
good accomplished by one of the op-  
posing party? Were it not for the  
fact that we know Woodrow Wilson  
to be so much bigger than any of his  
sensual critics we would be forced to  
the conclusion that our president is  
steering us directly into the bowels of  
purgatory.

In giving the particulars of an in-  
vestigation held in France to asser-  
tain whether or not crimes by the  
American soldiers were as large as  
charged, the Associated Press declar-  
es that in Paris the 34 murders charg-  
ed to Americans during the month of  
December have in reality been reduc-  
ed to two that 244 hold ups were re-  
duced by 80 per cent. It has been  
proved that criminals of all nation-  
alities have been disguising under the  
United States Uniform to commit  
their vicious deeds in the principal  
cities of France.

A short time ago howling pro-  
tests were being made by loose ton-  
gued orators in Kansas and Missouri  
about the heavy casualties sustained  
by the 35th Division on the front.  
They charged neglect of their boys,  
and made other appealing cries. Now  
comes the official report from gen-  
eral March that their casualties were  
less than 1,750 men killed and wound-  
ed, missing in action and prisoners.  
Fifteen of our divisions are reported  
to have born more losses than this.  
Wonder what the trouble borrowers  
will complain of next.

Everyone who is interested in the  
homestead laws of Texas should  
make provisions to attend the speak-  
ing to be held in the Court House at  
Cameron on next Saturday at 2  
o'clock p. m. Hon. Charles A. Leddy,  
General Attorney of the Federal  
Farm Loan Bank of Houston, is  
scheduled to speak on "The Federal  
Farm Loan Bank and the amend-  
ment to the Homestead Law." Whether  
are not you, Friend Farmer think  
that the present Homestead  
Laws should be amended in some  
form or fashion, you should take  
advantage of an opportunity that  
will give you more light on the ques-  
tion from an angle. Mr. Leddy is  
your official representative with whom  
speaks on a subject of importance.

"The newspaper heads are subject-  
ed to an enormous lot of criti-  
cism, both favorable and adverse  
mostly adverse. Because of their  
very business of giving the people  
information they openly expose them-  
selves to their readers. If they take  
the right side on a momentous ques-  
tion they are sure to receive the  
scathing rebukes of hundreds or thou-  
sands opposing; or if they stand for  
the wrong they are sure to be ridicu-  
led by the upholders of right. Ordina-  
rily correct actions by a newspa-  
per does not incite plaudits for the  
thousands of eyes scanning its pages  
every day seem to expect perfection.  
But make a little slip and it raises a  
howl from the army of readers that  
reaches to the very heavens.

It has been charged that the  
Frenchman is effeminate. After he  
has fought so brilliantly for four  
years we can hardly charge that but  
we must admit that there is a radical  
difference in disposition between the  
Frenchman and the pugnacious Ameri-  
can to be found so often in the West-

## Jazz Music

WHAT is Jazz music? So many have asked that question,  
and probably it never will be answered satisfactorily.  
Whence did it come? That, too, is an unsolvable mystery.

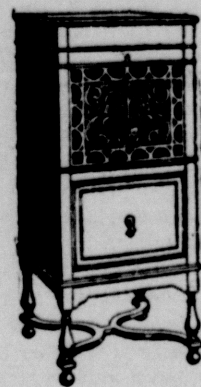

But it is here—the most extraordinary, remarkable, and to many  
thousands of people, the most fascinating music of the decade.

That Jazz marks a new era in popular music and dancing is  
unquestioned. And just now in New York on the Great White  
Way and all along the Rialto the great Lobster Palaces are  
throbbing and whining with its syncopation—its veritable orgy  
of rhythm run riot.

All the hilarity of Jazz that jangles in the cabarets of the Me-  
tropolis will echo through your own home with true Metropolitan  
tang, if you will let

#### ASK AID OF WORKERS

Secretary of Labor Requests Help of  
Labor in Starting Municipal Con-  
struction and Improvements

"Use your influence with your city  
fathers, your selectmen, and other  
town officers to start at once munici-  
pal town improvements." This is  
the message which the department of  
Labor is sending to wage workers  
throughout the country.

The Secretary of Labor, Hon. W. B.  
Wilson, has no fear as to conditions  
after the readjustment period is over.  
He believes that then everything will  
take care of itself. He further is  
optimistic even as to the readjust-  
ment period of States, cities, and  
towns will now commence public work  
to take care of the labor slack which  
may exist during the readjustment  
period.

He is therefore urging the wage  
earners of the country to use their in-  
fluence in their own communities to  
have school houses, engine houses,  
roads, canals and other improvements  
as beneficial to everyone, can easily  
be financed for all classes of labor.

London housewives are compelled  
to do their own work owing to the re-  
fusal of women to return as servants  
after working in the munition factor-  
ies. Factory life seems to have given  
the girls a distaste for housekeeping.

Kit Robinson tells us in the Kosse

#### County Depository.

Notice is hereby given that sealed  
proposals will be received February  
27th, A. D., 1919, by the County Com-  
missioners' Court of Milam County,

Clean, bright Oat Straw that was never rained on makes good feed. For sale at Batte's Store. 40

Mr. and Mrs. Alex Triggs returned to Rosebud Monday night after a week's visit to relatives in the city.

Lawless Green of the University of Texas spent the week-end with his parents, Mr. and Mrs. A. N. Green.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Attorney E. A. Camp of Rockdale was a visitor in Cameron this week attending county court.

Batte's Store will save you money on all kinds of seed for farm planting. 40

Misses Mabel Jeter and Katherine Flinn who are students of Baylor University were at home for the week-end.

Miss Gertie Graves of Sharp returned to her home last week after a visit in the home of her brother, Geo. T. Graves.

Batte's Store carries a full line of feed stuffs, such Corn, Alfalfa, Oat Straw, Bran, etc., at prices that are right. 40

Newt Van Zant of Granger was a Cameron visitor Monday. He is the father of Dr. Van Zant who is now in France.

Dr. T. A. Pope returned Sunday from the Temple Sanitarium where he has been for treatment. He is greatly improved in health.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Miss Helen Flinn came in from Baylor College at Belton Thursday and spent several days with her parents, Mr. and Mrs. E. A. Flinn.

Rev. Dr. J. E. James of Marlin was a visitor in Cameron last Tuesday when he had business with Rev. H. R. MacFayden.

Amber and Orange Cane Seed, choice stock for planting. Batte's Store. 40

Miss Lizzie Whites has been "under the weather" for the past week but is getting better at this time.

Dr. G. Lowden, at present residing in this city as Government representative of the Tick Eradication Campaign, is sick this week with something resembling influenza.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Little Billie Wallace who has been in the sanitarium the past three weeks was removed to his home the first of the week. We are glad to know that he is improving nicely.

Grandma used ashes on her spring garden. Agricultural Lime is the modern way. Put up in convenient packages. It is easier, quicker, and more effective. Sold by Jeter Lumber Co. 40

Truett Blaylock left Tuesday night for New York where he will be sent to his ship, the "Princess Matoka". Truett has enjoyed a thirty day leave with his parents, Rev. and Mrs. B. B. Blaylock.

Miss Alice McGhee who has been connected with Cheeves Bros. for several years has accepted a position with Triggs Dry Goods Co., where she is to be head trimmer. She left Monday night for St. Louis to buy the new spring hats.

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Rev. W. G. Harbin left last Tuesday afternoon for Center Point, south of San Antonio. On Wednesday afternoon Mrs. Harbin and her little daughter, Helen, left for San Antonio where they were met by Rev. Harbin, thence to Center Point. Here Mrs. Harbin will remain several weeks recuperating from the influenza.

Cut worms and other garden pests cannot be exterminated by using lime, but they can be checked, and their ravages reduced to a minimum if you use Agricultural Lime. Now is the time to apply it. Jeter Lumber Company. 40

Lieut. John Seibel, son of Mr. and Mrs. B. M. Seibel of this city, arrived in Cameron last Tuesday, being placed on inactive duty without discharge and subject to call at any time. Seibel announced that he will remain at home with his parents for several days.

Charlie Smith, formerly janitor at the court house in Cameron, returned to this city the first of this week and is shaking hands with many of his old friends. Mr. Smith hails from Anconda, Montana. Since leaving Cameron Smith has traveled widely and included a lengthy stay in Alaska during his wanderings.

Peach trees are blooming. Now is the time to put Agricultural Lime on the garden lot to correct the acid in the soil, release plant food for use of the growing plants, and make even fertile ground more productive. Jeter Lumber Company has Agricultural Lime and it is not expensive. 40

News from Clarence Smith, formerly a Cameron boy who graduated from the local high school with the 1915 class, tells that he is still in France, well, and having a good time. Smith is in Company F, 11th Regiment, United States Marine Corps. He admits that they cannot get him out of France too soon now.

Mr. Niley McKinney of Jones Prairie was a visitor in Cameron last Tuesday. Mr. McKinney is one of the oldest settlers of Jones Prairie and is a large planter of that section. His two daughters are in Baylor University and he is making preparations to sell his land, according to information.

Rich fertilizer on your garden will not produce the fullest results if the soil is tight and dead, unless you give the soil a dressing of lime. Agricultural Lime mellows the soil, causes the fertilizer to disintegrate, and release the chemicals so the garden crops can get the benefits of them. Can you afford to wait? Jeter Lumber Company. 40

### Planting Seed.

I have about 20 tons of seed that I have kept for planting which are from cotton raised from Storey Myrick Mebane seed that were direct from Lockhart in 1917, and gin records show a lint per cent from them of from 35% to 40 9-10 per cent. These seeds were saved pure as we used every care in handling them at the gins, the rolls being run out each time before these seeds were caught. I will sell these seed while they last at \$2.25 per bushel. R. L. Batte, Cameron, Texas.

## Cam-Hi Weekly News

Edited by the Students of the Cameron High School.

Knox Tyson.....Editor-in-Chief  
Jack Logan.....Assistant Editor  
Walter Adams.....Senior Editor  
Gaston Barmore.....Junior Editor  
Stewart Epperson.....Sophomore Editor  
Lee Tag.....Freshman Editor

### High School Life

"Pep" is the life of a high school. It is that thing which produces interest and enthusiasm in studies, makes hard work seem as if play and helps our school teams win. If "pep" is not present a school is soon sapped of its best benefactor. Nothing can help a school more than to have friendly rivals within it. It creates interest and behooves one to put forth the best that is in one.

Such has been conditions in the Cam-Hi for the past week. The Juniors challenged the seniors for a basketball game. The sophomores promptly declared themselves in favor of the Junior. The freshmen and seventh graders supported the Seniors. For such a display of "pep" one has never seen a comparison. Yell practices were called and various yells were learned. But, more valuable than that, "pep" creates cheerfulness and work. An observer in Cam-Hi would have noticed this every day of the past week.

### Seniors Victorious.

On Wednesday, January 29th, the Juniors and Seniors clashed in one of the best basketball games ever played on the local court. The Seniors all "garbed" in their class colors, purple and gold, and with their supporters, the Freshmen and Seventh graders, were on one side of the court giving yells for the senior team. While on the other side of the court were the Juniors and Sophomores all "diked" out in green and yellow, very suitable colors for them, giving yells for the Junior team.

The game started off with a goal for the Juniors. This brought out a great cheer from the Junior section. This did not seem to bother the seniors for they piled up the score with field goals. The Juniors soon caught us again and there followed a series of one team taking the lead and then the other. The half ended with the Juniors 9 and Seniors 8.

The next half the score continued to fluctuate, Denson, one of the Senior forwards, proved himself to be

one of the best forwards on the court. Peel, another one of the seniors, showed very much accuracy in throwing goals.

While all of this was going on, both classes were yelling and cheering for their team. Each side vied with one another in who could make the most noise. Time was called when the score was a tie, 16-16. This necessitated an extra period of five minutes to play off the even score. The seniors finally won the game with a score of 22 to 20.

### Chapel Exercise

The Cameron High School enjoyed their weekly exercises Thursday afternoon. A comical program was featured:

"Comical Music" Samantha Korn-tassel—Maudie Weaver.

Debate: "Resolved that the dish rag is more useful than the broom." The affirmative was upheld by the Juniors represented by Katie Cone and Mildred Chambers. The negative by the Seniors with Harriett Henderson and Katy McCall. The decision of the judges was in favor of the affirmative. The arguments advanced by both sides brought forth laughter and applause.

Comical Sermon—Leland Denson. Reading of the "Jokiteer."—Velda Walker.

The St. Cecilia Glee Club (Dixie Girls) from Bugtussell.

The glee club girls were appropriately dressed in costumes of Ark days and rendered a medley of songs of corresponding date. They responded readily to encores with "I Ain't Got Weary Yet."

The program was a success and was enjoyed by the high school and the seventh graders. Next week's program promises to be as good.

### Class Spirit

Class spirit! Cam-Hi is rife with class spirit, school spirit and pep. Ask the Juniors. Perhaps a little slow in going over the top with 100 per cent in red cross dues but now fully aware of their latent loyalty and leadership. The class has a motto that is stirring and thrilling: "Juniors first and best." Great pep and ginger were exhibited in Wednesday's basketball game when the "fearless senior five" were met by the dauntless "junior quintette." Although the juniors lost the score by two points in the last half minute of play their spirit is not broken. The juniors with characteristic pep and come back will once more test their ability against the seniors. If you want to see real class spirit

watch the juniors come out next Wednesday with flying colors.

### Clever Thief

Eugene, Henry, Eliot and Clark were lunching in a restaurant on a corner. Eliot went across the street to see a friend, and during his absence Eugene substituted for his own cup of milkless black coffee.

When Eliot returned to his lunch he could hardly believe his eyes.

"Well," he said, "I have heard of clever thieves, but to swipe the milk out of a guy's coffee is sure going some."

### Cam-Hi Military Expeditionary Forces

Preparations are being completed for the military hike on Friday afternoon. The winter time is ideal for out door hikes, for the invigorating cold air makes one feel like getting out and taking the much needed physical exercise. All the boys in the high school who wish to go are being organized into squads, each squad will be a unit by itself, it will have its own camp fire, mess preparation and other things such as quilts and blankets. The whole expedition will be under the command of "Capt." Crawford and the assistant lieutenants to be commissioned from the high school boys. School work will not be interfered with in the least and all preparations must be made out side of school hours. The Expedition will leave Friday afternoon as soon after the close of school as possible. ?

### New High School Piano

When the orchestra met last Thursday night for rehearsal we were all delighted to find a beautiful new piano awaiting us. We were not surprised for we have been certain that the ladies clubs would come to our rescue. The deal was put through our Howell music firm. The new instrument is in a golden oak finished and is a beautiful adornment for the stage. Mr. Crawford made the announcement that we will often have girls play in chapel. Good music, well rendered, like Miss Madie Weaver's selection on Friday, is an inspiration to all of us. We are also expecting to have some song books in the near future, and according to information we will have two or three short chapel exercises each week in order that we may have a chance to sing. Community singing is a very fine thing and we notice in the large cities the best class of people are meeting regularly for these community singings. Ours will not be on a large scale like that, but we hope to fill our auditorium with strains of good songs.

### Physics Lunch

In order to do an unusually long experiment, the senior class, because they would not have time to go home at noon, were asked to bring lunch on Friday. Each vied with one another in who could bring the most and best of "eats," which together with some most excellent hot chocolate made by the girls of the class, was eagerly "devoured" by the hungry experimenters.

### The Peace Conference Talks

The Seniors have been following the work of the peace conference in an excellent manner for the past week. Louise Green gave a brief but clear summary of the work done Thursday, Friday, Saturday and Sunday. In the absence of Irma Muse, Knox Tyson told of the work accomplished on Monday. Jack Logan followed step by step the work done in Tuesday's conference. Irene Cheeves gave a description, noted for brevity, of the discussions on Wednesday. Friday Katy McCall outlined very clearly, the positions that American delegates are taking and the work they are doing.

If any one does not wish to read the daily papers, come and listen to the seniors and hear the news.

### The Annual Staff Being Organized

The seniors have had a class meeting and have elected all officers and editors for the Annual. The following were elected from the senior class: Elliott Atkinson, editor-in-chief. Albert Collins, business manager. Cecil Barmore, assistant editor. Thomas Hefley, assistant business manager.

The editors have started collecting work for the Annual while the business manager has been calling upon the business men of the town for ads. You business men be prepared. This annual is to be the best ever put out by the Cameron High School and we want every one to have an ad in it.

Plans were being made to take the basketball teams to Ben Arnold and a request for cars came. Miss Rose—"I can take two players in my car, that will make four."

### Cam-Hi-Ben Arnold Game

Last Friday afternoon the boys and girls teams of the Cam-Hi went over to Ben Arnold to have a double header basketball game. A number of students were given permission to ac-

company the teams and from the rooting on the side lines one should have thought the Cam-Hi well represented.

The girls won an easy victory over the Arnold girls, the score resulting 11 to 5. The following girls were on the team: Louise Denson, Helen Tracy, Owen Bacon, Madie Weaver, Bess Wiley, Helen, Tracy, Rosa Daley and Bess Logan. The girls team is expected to play Rockdale Friday.

The boys game was called after the girls were through. This proved to be very exciting and the first half was very rough, a large number of fouls being called on each team. This was to the advantage of Ben Arnold for they have a goal thrower who seldom fails. In fact Ben Arnold won the game on the Cam-Hi fouls. The last half was more like basket ball, for the referee informed each team that any "ruff stuff" would disqualify any player. At the end of the second half the game was a tie, the score being 10 to 10. This necessitated an additional play of five minutes during which time Ben Arnold ran up three more points.

We hope to have several more games with the Ben Arnold school, for they are sportmanlike and put up a good game.

### Laboratory Work in Senior History

The United States Congress convened on Monday, January 27, in room 16, in special session called by the Hon. Amelia Williams, president of the U. S. A. This will always be remembered for the vital questions considered and the momentous proceedings that followed.

On Monday the center of interest was in the House. The chief officers in the House were Hon. E. W. Atkinson from Idaho, Speaker and Hon. B. V. Roberts from Missouri, clerk. In this session the democrats were in power by a small margin. With the powerful legislation of Hon. R. C. Thompson the Democrats managed to pass all of the bills brought forward

by them. Barge and Green were the most active republican representatives. Many bills were originated in the House and there were heated discussions from them.

The Senate being a smaller body was more dignified and orderly than the House. The vice president was Hon. Harriett Henderson from Michigan and she proved herself a very able officer. The following senators were democrats: Epperson, Coleman, Collins, Adams and Tyson. The republican senators were: Peel, Bragg, Ethridge and Horstman. The democrats who took most active part in the proceedings were Knox Tyson from Texas and J. L. Coleman from Missouri. They were opposed chiefly by the following republicans: Hon. H. W. Peel of Maine and R. Ethridge of New York.

Tuesday at the end of this session, Congress adjourned until some indefinite time and the record shows that the following work has been accomplished:

Two bills, one of which has been amended became laws. Both originated in the senate. The Coleman bill, entitled "To Exempt Congressmen from income tax" naturally passed both houses unamended, and was afterwards signed by the president. The substance of this law may be inferred from the title. The Peel bill which originated in the senate, provided that the president shall be elected by popular vote. It was amended in the house of representatives so as to provide also that he be elected for a term of six years with no reelection. The amendment having passed both houses was sent to the president. The president signed it and it became a law.

Besides these bills there were many important ones which failed to become laws. The chief one, perhaps, was the Atkinson-Thompson bill, by which the president's salary should be increased. At first this embodied a "rider" in the interest of the Hon. Idaho representatives, but when the

rider was removed by amendment the bill passed the house, it was killed, however, in the senate.

The McCall-Green bill, originating in the house, provided for the appropriation of a fund for the purpose of feeding certain European people who are now on the verge of starvation. It was passed in the house, in spite of the argument of Mr. Thompson of Idaho. In the senate Hon. Raymond Ethridge made a supreme effort to secure its passage. He adopted the awful horrors of "letting these people die" and at the end of his speech there were but few hearts that had not been touched and probably only a few tearless eyes. But there came speeches by two hard-hearted democrats and they influenced the senate to kill this bill that had been introduced in the name of humanity.

The Green bill entitled "The expenses of congressional candidate must not exceed \$10,000" passed both houses, was vetoed by President Williams, and was returned to the lower house. Here it was passed by two-thirds vote over the president's veto. When it was sent to the senate, that body refused to pass it over the president's veto, and thus was killed.

### Personals

"Red" Collins, away with that gum. Try to take a picture of "Crip" preaching a sermon.

Cecil Barmore was sick on Thursday.

Raymond Thompson's fingers are improving.

Lets reinstate George Cone as a freshman.

Will some one suggest to Louise that she leave her umbrella at home, and to Harriett that she divide her hat with Katy and Irene.

The Annual staff has had a meeting. You editors roll up your sleeves and get busy.

The Girls Choral Club may be heard at intervals warbling in the after school rehearsals.

**Ford**  
THE UNIVERSAL CAR

Reliable service for Ford owners can only be had where experienced Ford workmen using genuine Ford parts, or materials, have charge of the work.

This is why we urge you to bring your Ford car to us when it needs "going over" and fixing up. Careful attention given to your car will lengthen the period of its usefulness—prove to be money well invested. We have every facility to meet your wants and we give you the benefit of standard Ford prices.

## Boiled Just Right

One of the arts of making good syrup is in the boiling. Dunbar's King Komus Syrup comes from the kettles just right. Not only is it boiled and sterilized in a most modern and up-to-date plant, but it is watched and tested by experts. It is heated to just the right degree to preserve it well, and at the same time it preserves the genuine flavor of the cane to the best advantage.

## Dunbar's King Komus Syrup

is put up in a model factory. It goes right from the kettles to the cans and there is no possible way for it to come in contact with anything unsanitary on the way. The cans themselves are cleaned by machinery and sterilized and the syrup is capped by machinery. They are sanitary to the last degree. Dunbar's King Komus Syrup comes to you as pure as it is possible to get it. Above all the Syrup is of the highest quality. It is made from fine Louisiana sugar cane and has the delicious flavor of the cane that is so much desired in syrup. Dunbar's King Komus Syrup is the best for your table; for cakes, waffles and bread and butter.

## NEXT LOAN IS TRUE TEST OF PATRIOTISM

People of This Country Must Complete Great Task Undertaken to Save Humanity.

As time of the fifth Liberty Loan approaches nearer day by day it behooves every true American to begin to consider, provide, and make plans to do his dead level best in the big final drive for world freedom. Citizens of Milam must not and will not be found lacking at the final count.

The initial appeal in the great drive to come is now being issued over the country by the different headquarters of the treasury department Publicity Bureau. "By the time the Government calls upon us for subscriptions to the Fifth Liberty Loan we shall, as a nation, have received from contractors, ship builders, our soldiers and sailors and others, goods and service to the value of several billion dollars—all on credit. To pay the bill incurred under such conditions is but a measure of honesty in accord with our dignity."

It is a fact that the next loan will be the true test of patriotism. In the coming loan we will not be prompted by such a display of flags and colors, brass bands, and tales of heroic deeds fresh from the bloody battle fields, all of these many features in former drives as loosened our purse strings and made us "shell out" in behalf of the great cause and ourselves. "In the Fifth Liberty Loan we shall stand stripped of every immediately selfish motive, and our actions will proclaim to our fellow men to what extent we have caught the spirit of high and enlightened patriotism."

One more mighty effort is required of us, of you, of the people of Milam county, as well as every other county in this state and every state in the United States. It is not within the spirit of Milam to cringe and wriggle from beneath its share of the responsibility.

Women who supplanted men in clerical positions during the war and who have made good will in most instances be held in their jobs.

## For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE

# CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . .," writes Mrs. Mary E. Vesie, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

#### THE CHANCES IN LIFE

Did you ever stop to think what a large place chance occupies in this old world? For the individual life itself is a game of chance from embryo to the very grave. Civilization is founded on chance. A man hits upon a theory which, if proved successful, will mean great progress to the world, a revolution of certain industries, and, battling adversity, he "takes a chance" to prove to the whole world that which he believes in his mind. Columbus took a chance when he headed his ships into the western waters to prove that the earth is round. As a result of that chance a wilderness continent has within an incredibly short time become the center of world civilization. Nearly every great inventor has taken a similar chance in modified form. As a result of these we have such modern conveniences as the railroad, steamship, wireless telegraphy, the telephone, electrical power and innumerable others. Men, on the other hand, have conceived ideas, devoted life times and fortunes to their realization only to have them proved unsound, or have fallen by the wayside to perish before their understandings have been matured. Their, also, was chance.

The atmosphere is literally filled with myriads of germs, to which you

are exposed each day in the year. Others around you succumb, pass the eternal brink, and you continue to take a chance with every breath during the day. You miss death by a small margin when a speeding car dashes by just two inches from your nose as you start to cross the street, and you forget about it in a few minutes later. Lightning strikes near your side, and you laugh at yourself for giving a little involuntary start, whereas, if the bolt had struck only a leap nearer, you would have been a quivering corpse. The African hunter goes into the jungle for meat with only a rough bone knife between him and certain death. Sometimes he returns, sometimes he doesn't. The life of every normal human is filled with similar chance in more or less evident form.

Initiative, so favorably attributed to Americans, is nothing more than the art of venturing out, which involves chance in a large degree. In American we have many successes and many failures, because there are many such chance takers. Big business in this country is a game of adventure in which millions are continually in the balance. In Texas the oil mania is on. If ever there was a game of chance the oil game is one.

It is natural for all persons of ambition and aggressiveness to regard some forms of chance as desirable.

The man of high ideals grabbing straightforward chances as he climbs upward is held in the highest esteem. The poker player, dice shooter, one who bets at the races, the professional of such gambling schemes are on the other hand, indulging in a most degrading and demoralizing practice which is by right prohibited by law. Thus there is a distinction to be made in chance-taking in its different forms. Since the man who never takes a chance rarely ever gets anywhere in life, we believe that the wise man is the one who can discriminate between the materially good and bad, the moral and immoral chances that confront him, and launch out according to his conclusions.

One thing is certain—the man who never takes a chance rarely ever accomplishes anything worth while. For all the hardships that it might bring the very uncertainty of chance adds a glow of interest to life. We would find the world one dull grind of monotony without the fascinations offered by it.

#### North Elm News.

I believe it has been quite a while since I have seen any North Elm news so I thought I would write a few lines as it is rather lonesome in our country now, the roads are so bad we can hardly get to town for our needed supplies.

Jim Hury has returned home from the army. Quite a number of the young people called to see Mr. and Mrs. Charley Knight last Sunday afternoon and enjoyed a play with the imitation of "Happy Hooligan."

Mr. Stephens gave the young folks an entertainment Monday night.

Jim Hury has bought a new horse since he returned from the army and will bring home a new buggy at an early date. He also received a letter from his brother in France stating that he had been in France seventeen months and had the sum of eighteen thousand dollars.

The farmers have not plowed any yet. Many of them have cotton to pick.

As I am not writing any news of interest I will stop and give some one else room. Wonder Who?

Subscribe for the Herald.

#### Homer McGregor, Oil King.

The friends of Homer McGregor, a former resident of Cameron and a brother to Claude McGregor of our city will be glad to hear of his good oil luck. For some years Mr. McGregor has lived in Ranger. He was the proprietor of a grocery store there. Not long ago he was given two blocks of sandy land as part payment on a debt. The land which was pure sand, was not worth a farthing to anyone. But the sand proved to be only camouflage, for the other day Ranger became a city of derricks—and the inhabitants—oil kings. One block of Mr. McGregor's sold immediately for \$25,000, the other he kept. He set up a derrick and it is bringing him 1000 barrels of oil a day. This reads like an Aladdin Lamp story, but it's the way Mother Nature plays tricks on mankind.

#### Meeting With Mrs. Albert Triggs.

Last Monday afternoon at the residence of Mrs. Albert Triggs the Young Woman's Auxiliary of the Baptist church enjoyed a social meeting. The girls of the church over sixteen years of age were the invited guests. A series of games were played and a jolly good time had by the sixteen girls who attended. After the fun, a business meeting was held and the incorporation of these girls as members of the Young Women's Auxiliary took place.

The Auxiliary is to meet twice a month—on the first and third Mondays. The nature of these meetings will be bible and mission study.

#### War Savings Stamps Sold in January.

Sale of War Savings Stamps at the post office amounted to approximately \$3,000.00, according to T. B. Wooten of the local mail department. The following were the big buyers:

Giles A. McDermott of Route 4, \$1,000.00, (the limit allowed.)  
Miss Lillian Tuttle, \$600.00, (will finish to \$1,000.00.)  
W. G. Whittaker from near Marek, \$500.00. (Plans to finish to limit by end of the year.)

Hulls at \$16 out of the car or \$17 from the house. Cameron Cotton Oil Company. 41

Tea stains are best removed by rinsing immediately in cold water.

## The Sanitary Market

We have opened up a clean up to date Meat Market and are in position to give the people of Cameron the very best service. We will be pleased to have you call and inspect our place.

# BURKBURNETT OIL FIELD

## "Wonder of Twentieth Century"

### Poor Folks Make Fortune---Dazzling Dividends Expected.

Did you read the write-up in the Fort Worth, (Texas) Record, Thursday, January 23? It was an article about the Burk Burnett oil field. The writer in reviewing activities in that wonder field, gives names of companies which recently have paid big dividends. Read this article—it tells you what has been done in that great oil territory. The article, in part, reads:

"The Burk Burnett oil field is proving the wonder of the twentieth century. The Fowler gusher, brought in July 26, 1918, precipitated a riot of development unparalleled in the history of the petroleum industry. More than \$25,000,000 was invested in 350 oil companies, big and little, in five months. Oil Men declare that when all wells completed and under way since August 1, 1918, are producing to capacity, the Burk field will be making between 180,000 and 200,000 barrels per day, worth, at the posted price of \$2.35 per barrel, an aggregate of \$446,500 per day, or \$13,355,000 per month, or \$150,740,000 per year. \* \* \* So far as public announcements have conveyed such information, or as producing companies have consented to answer queries, it is known that at least fourteen dividend-payers have mailed out large profits to their stockholders in the last sixty days, as follows:

HAMMOND NO. 1	226 PER CENT
KAP, CITIZENS, BIG POOL, COLUMBIA, COUCH-WINFREY, HAMMOND	
No. 2, EACH	100 PER CENT
WALKER	50 PER CENT
BIG THREE	25 PER CENT
FLOYDADA	25 PER CENT
WICHITA OIL & GAS	25 PER CENT

"Not a one of these wells was brought in before September 1, 1918. The list is expected to be greatly increased within a short time. Many other wells—which are on the sand—undoubtedly will pay big dividends and some of them are expected to pay enormous profits.

"It is believed that an era of dividend paying, more dazzling than ever recorded by a mining camp or an oil field is soon going to start in Burk Burnett.

"\* \* \* A distinctive feature of the Burk success has been that thousands of comparatively poor people made fortunes out of property leases, royalties and stock in hundreds of wells."

## Burk-Ranger Oil Association

North Texas Sales Co., Fiscal Agents

611 1/2 Main Street

Ft. Worth, Texas.

We are going to drill for a big gusher in the great Burk Burnett oil field—the wonder oil district of the age. We are on our toes and can hardly wait until we get the drill going down, down, to what we confidently believe will be a big gusher of oil. We expect to get a real sure enough oil well that will make from 500 to 3,000 barrels per day. If we get only a 100-barrel well—well, figure for yourself how valuable an interest in this company would be.

We have an eight acre lease right in the Burk Burnett field. There is room for at least four wells. Then we have 40 acres leased in Callahan County, Texas, where deep test are going down all around us; we also have an 80-acre lease in McCulloch County, Texas near the Eastern Oil Company, which is down 1,200 feet. Others are drilling near our holdings.

We want to start drilling on our Burk Burnett holdings right now. We don't want to wait another day. We need a little more money for this purpose. Our Burk Burnett lease is approximately three-fourths of a mile from the Fowler well, one mile from the Marine well, one mile from the Helen Elizabeth well; only a short distance from the Ray Hammond well. These wells are reported making from 800 to 1,400 barrels of oil per day. Geologist reports that trend of oil in this field is toward the bend in the river right near our wonderful lease. Big chance of getting a real gusher.

Stop and think a minute of this wonderful field. Who can tell how big it will be? Remember you will have no one but yourself to blame if you miss this chance of making money with us. Small capital—only \$90,000 at \$1.00 per share, par value. When we drill in a 1,000-barrel gusher the returns to our stockholders should be at least 100 per cent per month—will you be among them?

The officers of this company are known as reliable business men: Mr. L. C. Tharpe was in the automobile business in Oklahoma City for many years, and the State National Bank of Oklahoma City will furnish information about his ability and integrity. Mr. Tharpe is a trustee for our company. Mr. W. R. Bass is widely known in Texas as a practical oil man with a successful record. He is director in two other companies producing oil. Mr. Bass is manager of the company. The Brantley-Draughon Business College and the American National Bank of Fort Worth, our depository, are his references.

The oil game is a fast business—those who wait seldom, if ever, make any money. Those who act quickly have the best chance of making big money. Don't wait a minute longer. Fill out the coupon below and send it in right now. We reserve the right to return your check in event our limited amount of stock is oversubscribed.

### Training Little Children

Simple Things Please Children—And Simple, Loving Methods Are Successful in Controlling Them.

Suggestions by mothers who have been kindergartners. Issued by the United States Bureau of Education, Washington, D. C., and the National Kindergarten Association, 8 West Fortieth Street, New York.

(By Mrs. Isabel S. Wallace)

How many things can be made by folding ordinary wrapping paper! Soldier caps for small boys keep them amused a long time. A house and furniture with a few cut out dollies make such busy little girls. After all it is the simplest things that make children happiest.

When at my mother's home one time my little girl folded and cut a house, windows, doors and all. Her grandmother was delighted and the little one said, "We'll keep it to show grandpa and I guess he'll say I am a smart Tottie." With a little thought mothers can learn how to fold and teach their children to fold a number of things. It is excellent practice in accuracy and neatness, besides affording the joy of making something.

In a regular kindergarten all the sets of blocks, which are of different sizes, are kept in boxes with covers, and each child puts his away carefully and correctly or else the cover will not fit. Then all the sets are collected and packed in a closet by a few of the children. Children love to help keep things in order and enjoy doing it.

At home, also, a child should have a place for his toys. A playroom is ideal, but if this cannot be provided, some place surely can be found, even in a small flat, which a child may have for his very own to keep his toys in. From the age of sixteen months, I insisted that my little girl put her toys away neatly. We began it as play, and now it is a habit. Of course, sometimes she is in very much of a hurry to do something else, but the toys are put away in the end. We made her a large drygoods box, standing up on end. My husband put cheap castors on it and two shelves across it. There all the small toys are kept. The blocks have their own boxes; the small things have baskets; and crayons, pictures and papers go into a box with a cover. All of them fit into the shelves; also the animals, dolls' trunks, washtubs and many other such things. The picture books have a compartment in the large bookcase. "A place for everything and everything in its place," when little folks

have finished playing, makes a good rule.

One day when my child was not at home, a little girl came in for a visit. I took her into the playroom and left her there very happy. After a short time she went home. When I returned to the playroom I found everything so scattered over the floor that there was hardly room to walk. The next time the little girl came, I had a talk with her. I have made it a rule, and it is a hard rule to keep, for some mothers are offended, that if a child will not help put away the toys carefully when he is ready to go home, then he cannot come back to play with that toy again until he is ready to do what I ask. My little girl was playing at the neighbor's a few days later. When it was time to come home I went for her. The children were cutting out pictures and had made a dreadful mess on the table, chairs and floor. I told my little girl to help pick them up before putting on her things. The mother said: "Oh, that's all right, Sadie never picks up scraps; I do that. So don't make your little girl do it." And my child smiled and calmly said, "It's all right, Mother, I don't have to pick up p here." Then I told the mother about my rule and explained that it wasn't mere crankiness on my part, but a desire to form good habits in the children and to develop character.

All children are naughty at times and it is so hard to know how to deal justly with them. One day when I was very busy my little girl came in from playing in the garden. I suppose she was tired and hungry, but she did not herself know what was the matter. She began to try a new kind of naughtiness, lying down on the floor, kicking and screaming and saying naughty things to me. I was amazed, and quite puzzled as to how to treat such a proceeding. At first I ignored her, but she kept it up. I asked a few questions in a kindly way, but that seemed to fan the flame. I was busy, in a hurry, warm and tired and began to get very angry. Nevertheless I realized that if I could not control my temper, I could not

expect a 5-year-old child to do so. So I pondered over what to do. Finally I went over and picked her up and carried her to a chair where we sat, or flopped down, as it was no easy task carrying a kicking, crying mass of humanity. I never said a word, but rocked her quietly. After a little while she stopped, and I began to sing softly. She almost went to sleep. Then I knew she was simply over-tired and I was so thankful that I had not indulged my own temper in any way. After a short time we had lunch and then she went to bed for her afternoon nap. She slept hours, repairing the wasted energy and her nerves in blessed sleep. She has never tried that trick again.

I find a word of praise goes so much further than blame, and the bright eyes give back such a grateful look.

Last autumn my little girl began to go to kindergarten. She loves the work and is always so proud to show what she has made. I was very anxious for her to go, as she was shy and needed to learn "team work" and to rub up against other children in order to polish off the corners.

The kindergarten is the link between home and school. There is more freedom, more spirit of comradeship, more play than in the classroom, and to me it seems like administering a rude shock to usher a child into definite studies fresh from the home. By attending kindergarten, the child becomes familiar with a school building, school hours and necessary rules; he develops courtesy and kindness toward others, and enjoys listening at story time. He also likes working and playing in unison with others, and he learns to control the whole body. No school is complete without a kindergarten.

Please pass this article on to a friend and thus help Uncle Sam reach all the mothers of the country.

Mrs. Joseph Spickler and her 14-year old daughter, Evaline, were contestants in a oratorical contest held recently in Marysville, Pa.

### RESOLUTION ADOPTED BY FARM LOAN ASSOCIATION

The following resolution was unanimously adopted by the Cameron National Farm Loan Association, of Cameron, at a call meeting of its stockholders, January 25th, 1919:

Be it resolved:

1. That we oppose the repeal or any amendment, change or modification of our homestead laws, or the submission of a constitutional amendment for that purpose by this legislature.

2. That we deem it unwise and dangerous to the success of any Banking institution for its officers to engage in politics, and we, as members of this Association, and as stockholders in the Federal Land Bank at Houston, earnestly and solemnly protest against the activities of the officers of said Bank in the present campaign against the homestead laws of this state.

3. That the great volume of literature distributed throughout the State by mail and other methods, together with other campaign activities, induce us to believe a huge fund has been raised for the campaign. This fund was not furnished by the farmers of the state; we cannot believe it was furnished from the private funds of the officers of the Federal Land Bank at Houston, and we know, in reason the funds of the Bank were not used for that purpose, and with this eliminated, our curiosity is aroused to know from what source the campaign fund came.

4. That we learn with humiliation and regret that a few of our brother farmers have passed resolutions, at various farm meetings, favoring an amendment of our homestead laws. We do not believe such farmers were instructed or inspired by the farmers whom they represented, or acted upon their own judgment in passing such resolution, but we do believe they were misled, deceived and persuaded to do so by those who are not farmers.

5. We believe the same methods are now being employed in Austin to mislead and deceive our senators and

representatives, and to persuade them to submit to constitutional amendment to amend our homestead laws; and we urge that each of them be firm, be manly, be patriotic, be courageous and vote against the submission of such amendment.

6. That we endorse and commend the brave, manly and patriotic position taken by the Hon. Barry Miller, of Dallas, and other members of the House and Senate in opposing all attempts now being made for the submission of such amendment.

That One Thousand copies of this resolution be printed, and that a copy be furnished the Federal Land Bank at Houston, the Honorable C. A. Leddy, general attorney for said bank, at present sojourning in Austin, to our Senators and Representatives, to the Farm and Ranch, to our county papers and to the various daily papers of the State

J. S. Barmore,  
President,  
H. M. Hefley,  
Secy.-Treas.

### SAYS HUN MUSTARD GAS SHELLS COOKS THE FLESH

Camp Sherman, Ohio.—"Mustard gas shells which the Huns used in many instances cooked the flesh," said William Arnold, Penn., Ill., Company D, 47th Infantry, while recounting an engagement with the Germans near Verdun.

"When the enemy made an attack, we adjusted our masks, but the gas was so deadly poisonous that it scorched our hands and necks. If a man failed to get his mask on in time, nine times out of ten his face would be badly burned. The effect resembled a bad case of smallpox," he said.

Private Arnold is in the base hospital here recovering from shrapnel wounds in both legs.

Women and children from a larger portion of workers in agriculture in Germany than in any other country. Of the total of 15,000,000 agricultural workers 8.3 million are women.

Keeps **PERUNA** In the House All the time

Breaks up a Cold. Good for Bronchial Inflammations.

Mr. Robert McDougall, R. R. No. 6, Liberty, Indiana, writes:

"I wish to state that I always keep Peruna in the house. I think it is a good medicine to have on hand. I take Peruna and it breaks it up for me. It is also good for the Bronchial Tubes."

Peruna has served the American people for more than forty years. Those who know its value always have it at hand. Why not you?

Those who object to liquid medicines can secure Peruna Tablets

# Giant Duke Owns Seven Tracts

## 305 Acres

Duke No. 2, one of the Biggest Gushers in Texas Field Friday Was Spouting Oil 300 Feet over Derrick Braswell in, Extends the Wonder Duke Oil Field To About Three-Fourths Mile Of

## Giant Duke's Choicest Drilling Site

Looks Good — Buy Now  
Proven Good

SHARES \$10 EACH

CAPITAL \$100,000

### Two Choice Drilling Sites

Tracts Nos. 1 and 2 in the Duke and Knowles Field.

Tract No. 1—10 acres, 1 3-4 miles of Duke and Knowles; 3-4 miles Braswell and 1/4 mile of Gates well.

Tract No. 2.—15 acres 2 miles north of Magnolia Davis well; 1 1/2 miles south Magnolia Foster well.

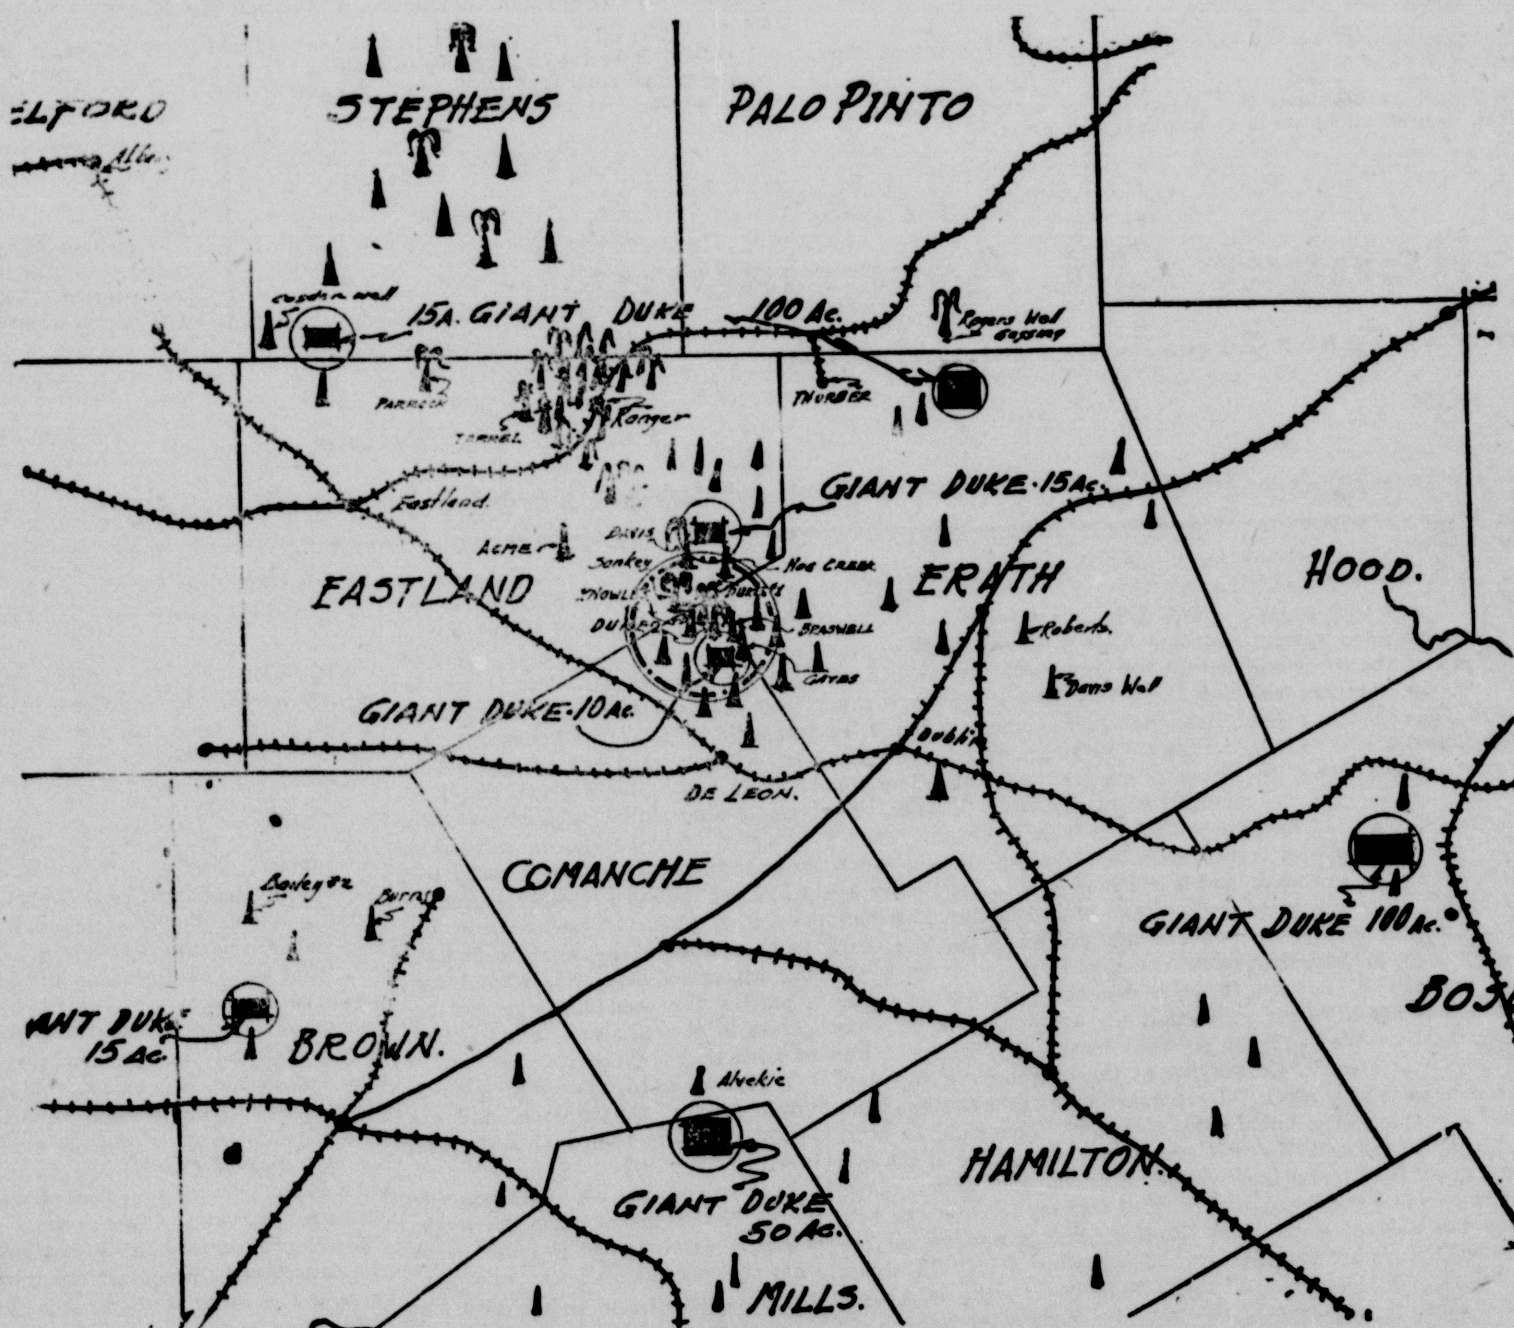

Tract No. 3—15 acres southwestern part of Stephens county, 3 wells drilling, 3 sides.

Tract No. 4—15 acres 6 miles Bailey No. 2, ready to come in; 5 miles Burns well; 3-4 mile from drilling well on the south.

Tract No. 5—50 acres north end Mills County, 2 miles Luckie well, drilling, gassing.

Tract No. 6—100 acres north end Erath county, near R. L. Rogers well. This well making strong gas, expected to be one of the big producers of the field as soon as drilled in. Also T. & P. Company drilling two wells on the west—Big Jack and Franklin drilling on east.

Tract No. 7—100 acres Bosque County, 2 1/2 miles well to be drilled soon, derrick built, rig and fuel on ground.

Shareholders get interest in 305 acres and in All Wells

With pronounced oil formations a number of these wells surely will strike the Big Pay Oil, making our lease values like Hog Creek, where bids of \$5,000 for 100 shares did not get the stock.

What One 5,000-Barrel Gusher Will Do  
Will yield for the Co. \$8,000.00 per day.  
Will yield Investor \$8.00 per day for each \$100 invested.
